REVENUE DEPARTMENT

Sir,

Land Acquisition - South Kanara District - Coondapoor Taluk Jog falls - Hydro-electric Scheme, Mysore - Entertainment of special staff - Proposals.

Government Endorsement No. 3988/E/42, Revenue, dated 24-9-42 and Memorandum No. 5537/E/42-1, dated 8-1-1943.

One of the three surveyors detailed for survey work in connection with the acquisition of lands in this district for the Hydro-Electric Scheme, Mysore, joined duty in about the middle of November 1942 and the two others in about the middle of December 1942. The Tahsildar and the Revenue Divisional Officer, Coondapoor inspected their work towards the end of last month and they report that the survey work is progressing. It is estimated that the work may be completed by the end of March 1943 if the present rate of progress is kept up and no unforeseen difficulties arise. In para 3 of the Government endorsement No.3988/E/42-1, dated 24-9-42 the Government have ordered that one special Revenue Inspector and a peon should be appointed for the valuation of the lands as soo as the joint survey is completed. If the valuation of the lands should begin only after the joint survey is completed, I am afraid, that it may not be possible to complete the acquisition proceedings before June 1943 as desired by the Mysore Government, because both Government and private lands affected by the scheme will have to be valued, the former by way of fixing rents and the latter by way of fixing their actual value. The total extent is estimated at 1278.53 acres. Besides one Revenue Inspector will not be able to cope with the work. I, therefore, request sanction to appoint two special Revenue Inspectors with a peon each for the valuation work for such period as the work lasts and also to entertain them immediately. They can start the work now as the survey work progresses and follow the surveyors.

2. In addition to the valuation of the lands which is in itself a big task, the cost of construction etc. of these temples including a Jain Basti has to be determined and there is also the question of forming alternative roads and bridges. All these are important matters which cannot be left entirely with the Revenue Inspectors and scrutiny by a more responsible officer is called for. The Tahsildar of Coondapoor cannot bestow sufficient attention to it in addition to his normal duties and war work, especially because the kist season is on and the villages are situated in a remote place over the ghauts far away from the taluk headquarters. I, therefore, propose that a Special Deputy Tahsildar or preferably a Special Tahsildar with one clerk and two peons, may be sanctioned for the purpose. They may be entertained a month after the special Revenue Inspectors start their work.

3. The Revenue Divisional Officer, Coondapoor, in whose jurisdiction the villages are situated has a fairly heavy division of these three taluks and it will not be possible for him to attend to the additional work involved in these land acquisition proceedings. I, therefore, propose that a special Land Acquisition Officer for a [illegible] three months with a staff of one clerk, one typist and [illegible] may be sanctioned for the work. They may be entertained

4. The above proposals will involve a temporary additional stablishment of one Tahsildar on a scale of Rs.165-235 or one eputy Tahsildar on a scale of Rs.120-165 as the case may be, - our clerks and one typist on a scale of Rs.30-55 and six peons scale of Rs.12-17 in addition to the post of a temporary Deputy ollector all for a period of three months except in the case o wo clerks and two peons in which the duration will depend on - he time taken by the special Revenue Inspectors for the valuat f the lands. This may be sanctioned.

5. As regards para 4 of the endorsement No.3988-E/42-1, dat 6-9-1942, I invite attention to my letter Ref.E2-7361-42, date 6-11-1942 submitted through the Board of Revenue, a copy of -- hich I now enclose for reference, and I request orders on the oints raised therein.

Submitted to the Government.

2. Para.1 of the Collector's letter - In the circumstances reported, the Board sees no objection to the work of valuation of the lands being taken up simultaneously with the survey and it accordingly recommends the immediate employment of two Special Revenue Inspectors with a peon for each, for the valuation work, as proposed by the Collector. The staff may be retained till such time as the work lasts.

3. Para.2 of the Collector's letter - The Board agrees with the Collector that a scrutiny and supervision of the work of the

Revenue Inspectors by a more responsible officer is necessary. It, therefore, requests that the Government may also be pleased to sanction the employment of a Special Deputy Tahsildar with one clerk and two peons for a period of 3 months from the date of employment. This staff may be employed one month after the Special Revenue Inspectors start their work.

4. Para.3 of the Collector's letter - The Board considers that it is too early now to consider the question of appointing a special Deputy Collector. The Collector may, perhaps, examine the need for a Deputy Collector and submit a report when the number of cases, fields etc., are known precisely and when the exact amount of work can also be ascertained definitely.

5. With reference to paragraph 5 of the Collector's letter, the Board invites the attention of the Government to its Reference No. 2945/42-1 dated 8-1-43.

Submitted for perusal. The main file on the subject (C.No.5537 E/42) was submitted to U.S. on 31-1-43. In that file, it was suggested that the Board may be asked to expedite its remarks on the Collector's letter at pp. 3-4 infra. The Board's remarks referred to in pp. 1-2 above. Pending the acceptance by Mysore of the rentals on lands, it is for orders whether the Board's proposals in paras 2, and 3 of its Repr. above will be approved. If so, the draft memo. to be put up in the main file will be suitably amended. The Govt. may also agree with the Board's views in para 4 of its repr. above. In paragraph 2 of his letter R.F.256/40/Pol., dated 10.9.1942 read in the Government Memo. quoted above, the Secretary to the Hon'ble the Resident in Mysore stated that the dam at Hirebhasgar would be constructed to the full height by June 1943 and that the lands in the neighbourhood would get submerged during the monsoon 1943. The actual acquisition proceedings have, however, not commenced so far as the preliminary joint survey is yet to be completed.

2. The ryots of the villages affected by the Scheme have now come forward with a petition stating that if they are, all of a sudden, asked to vacate their hearth and homes

during the coming monsoon, they would be put to great hardships and loss.

3. There is some substance in what they say because these villages (Hebbige, Koteshiroor and Nagodi) are situated over the Ghauts far removed from other inhabited parts of the Taluk and it will be really ---- difficult to shift the place of residence during the rainy season. It is also a matter of loss to abandon the lands just after making preparations for the ------ cultivation. I, therefore, request that the Government may be pleased to ascertain urgently from the Mysore State whether it definitely proposes to submerge the area in June next, in which case the ryots may be informed so now, so that they may make arrangements for shifting --- themselves elsewhere.

FOR Collector.

Please see the letter of the Collector of North Kanara at pp 1-2 above and the note above. The main file on the subject was submitted to Secretary on 16-2-1943. It is remembered that the memo. to the Board referred to by ~~[illegible]~~ was actually issued on 13-2-1943. With that memo. a copy of the ante letter from the Secretary to the Hon'ble Resident in Mysore asking for the shifting of certain villages, was enclosed, and the Board was also asked to consider whether any

Warning will be necessary to the ryots of the villages concerned. The Board will evidently issue necessary instructions to the Collector in the matter.

Vide para 3 at p. 22 ante

The Hon'ble the Respondent has also been asked to furnish particulars of the land which Mysore wants to be vacated.

For orders whether the Collector's letter may be communicated to the Board in continuation of the memo referred to at p. 26 (2) ante (pp 19-20 ante) and the Board asked to issue necessary instructions to the Collector with ref. to that above memo.

SECRETARY TO THE RESIDENT.

Letter from the Secretary to the Government of Mysore, Public Works Department No.P.W. 7167, dated the 1st April 1943.

Acquisition by the Government of Mysore of lands in Coondapur Taluk, South Kanara District, for the Jog Power Scheme.

I am directed to acknowledge the receipt of your letter No.R. 256-40/Pol. dated the 3rd March 1943 on the above subject and to sta that this Government are agreeable to the following terms stipulated by the Government of Madras in their letter No.5537E/42-5 dated the 11th February 1943:-

(1) Payment of rent by the Government of Mysore on the private lands to be acquired on the basis of the loss of revenue previously derived from them by the Government of Madras, which will be equal to the full existing land revenue without allowing for any temporary concessions which the Government of Madras might have granted in the matter of land revenue, and

(2) Payment of the cost of litigation, if any, arising out of acquisition of private rights in lands in addition to the cost of the acquisition including any enhanced compensati that may be awarded by a Civil Court.

regards the handing over to Mysore of the land already proposed for acquisition, I am to state that the Chief Engineer in Mysore reports that contour sketches relating to the acquisition of lands in Coondapur Taluk were furnished to the Madras Survey party by the Mysore Survey party on the 28th January 1943 when the Circle Officer of Survey, Madras, was camping at Honnar, Coondapur Taluk. It is also stated that the Executive Engineer, Hirebhasagar Divisio has furnished in his letter No.1531 dated the 1st March 1943 (copy enclosed) to the Collector, South Kanara District, consolidated blue print plans (in four sheets) showing the full reservoir level contour line in the villages of Coondapur Taluk. In these circumstances, I am to request you to be so good as to cause proceedings under the Land Acquisition Act for the acquisition of these lands being started immediately by the Government of Madras. If there are any lands or buildings that are required to be vacated other than those already shown, the same will be intimated in due course.

Letter No.1531 dated 1-3-1943 from the Executive Engineer No.1 Division, Hirebhasgar, to Mr. M. Karamatulla, I.C.S., Collector, South Kanara.

Land Acquisition - South Kanara Coonda Taluk, Jog Power Scheme, Mysore.

With reference to your letter No.B1.7361-42 dated 13th January 1943 and subsequent letter dated 15th February 1943, on the above subject requesting to supply the contour sketches, I have the honour to inform you that the contour sketches were furnished to the Madras Survey Party by the Mysore Survey Party during the survey work at the end of January 1943, when it is reported, that Circle Officer of Survey, Madras, was also camping at Honnar. The Revenue Survey Maps of Hebbige, Hotesirur and Nagodi with the full reservoir level contour of 1778 marked thereon by the Mysore Survey Party were given to the Madras Party of Land Revenue Surveyors who took tracings of the maps and the contour line. I am also enclosing herewith consolidated blue print plans (4 sheets) of the above villages of Coondapur Taluk showing the full reservoir level contour line. I trust this plan is what is required by you and I request you to kindly intimate if any further particulars are required.

Sir,

Land Acquisition - (South Kanara) Coondapoor Taluk -Jog Falls -Hydro Electric scheme, Mysore -entertainment of additional special staff -proposals.

---- #22-24

In their Memorandum No. 5537 E/42-6 dated 11-2-4 the Government sanctioned the employment in Coondapoor Taluk of two lower division clerks on Rs.30-55 each p.m. in order to enable the deputation of two clerks to do duty as Special Revenue Inspectors for the valuation of lands proposed for acquisition in connection with the Jog Falls, Hydro Electric scheme. The work of valuation of the lands was begun last month and is in progress. Joint Survey operations are expected to be over by the close of this month.

2. As already reported by me in my letter Ref.B1-7361-42 dated 21-1-43 the total extent of lands involved in the above scheme is about 1278-53 acres. Each Revenue Inspector will be able to complete 200 acres per month on an average, making due allowance for office work. The work of valuing such a vast extent in such short space of time is a huge task, the more so as the valuation work will have to be over by the end of May 1943, the Mysore Government having determined to submerge the whole area in the beginning of June 43. The Dy.Tahsildar employed for the above work has just joined duty (18-4-43) and in case it is decided that the preliminary work should be brought to a close by 31-5-43 the existing staff of 2 Special Revenue Inspectors will be hardly sufficient and it will not be possible to submit the 4 (1) notification even in June. I therefore request that the Government may be pleased to sanction the employment of four additional Special Revenue Inspectors with one peon for each for the valuation work for such period as the work lasts and also their immediate entertainment. The above proposal will involve four lower division clerks on Rs.30-55 and four peons on a scale of Rs.12-17.

I also beg to suggest the following alternative proposal. The villagers have not had sufficient notice of submersion of their lands during the coming monsoon (June 43) the notice having been published only about the end of March last and they will be put to a great hardship in case they are asked to shift their hearth and houses in June 43 when the monsoon breaks in. The main work of the Land Acquisition Officer will commence only after the 4 (1) notification is published. In this case it is expected to be published towards the close of May if the additional staff asked for above is sanctioned. The Land Acquisition Officer will not be able to inspect the lands during the monsoon as the villages are hilly being situated over the ghauts and if the lands should come to be submerged in June as already notified by the Mysore Government, there will be nothing on the land for the Land Acquisition Officer to inspect. In view of the above difficulties I request that the Government may be pleased to move the Mysore Government to postpone the submersion of the lands till December 1943 in which case the additional staff now asked for will not be necessary.

4. The work of demarcation and stone-planting on the area proposed for acquisition is nearing completion and I consider that a joint inspection by an officer of the Revenue Department and one to be deputed by the Mysore Government is absolutely necessary in this case so that the work of the Madras Government may not be called into question by the Mysore authorities at a later stage. I therefore request that the Government may also be pleased to address the Mysore Government to fix a date for the joint inspectio

Ref: Board's Ref.b.No.2945/42-2, dated 23.2.1943.

With reference to paragraph 2 of Government Memorandum No. 5537-E-42-1 Rev., dated 11.2.43, I submit that in the case of occupied (private) lands, the rents to be levied may be fixed as equal to the land revenue assessment ordinarily payable on the lands, subject to revision at future resettlements.

2. Most of the unoccupied lands are dry lands, which are unsuitab for any sort of cultivation and have no potentialities for any purpose other than growing leaf manure especially in the Ghaut villages in question. Only nominal rents can be fixed in respect of them. The wet and garden lands which are not many, must be relinquished lands or bought in by Government for arrears of Revenue. As these lands are lying waste and overgrown with forest and as there is no demand for ther there may not be a likelihood of getting rents higher than their assess ment. I, therefore, propose that in the case of all classes of assess unoccupied lands, rents may be fixed at the rates of assessment now pre vailing and subject to revision at future resettlements. The Special Deputy Tahsildar will however be asked to hold a detailed investigation in this regard and to give full reasons if a higher rate is recommended wherever necessary.

3. In the case of unassessed and poramboke lands, which include rivers, rocks, swamps and the like, and which would not, either now or at any time in future, bring in any income to Government, I recommend that a nominal rent at the uniform rate of one anna per acre may be fixed.

4. A question has arisen as to whether the value of the tree-growth in unoccupied lands should be demanded of the Mysore Government and if so, whether it is necessary to have an estimate of the value of tree growth proposed. Most of the tree growth would be jungle wood and as the extent involved is more than 700 acres (extent of unoccupied lands), the task of valuing the tree growth would be both gigantic and difficult and would take months if the dimensions of every tree is to be taken and the valuation done at the usual seigniora rates. I may point out in this connection that the trees, including the timber trees have practically no saleable value in these villages owing to their situation over the Ghauts very far away from marketing centres and also due to abundant timber reserves in private lands to meet local needs. I, therefore, propose that their value may either be waived or if it should be collected, it may be fixed at a lump sum estimate, which I shall propose on receipt of orders.

rder—No. 847, Public (Services), dated 27th May 1935.

It was brought to the notice of Government that after the issue of the rules in .O. No. 311, Public, dated the 13th April 1933, regarding the application of the revised cales of pay certain Collectors made promotions in the Ministerial Service contrary o the provisions of rule 14 (*a*) and rule 14 (*b*) of the old general rules for subordinate ervices. This they did on the ground that the seniors who were overlooked had not cted in the higher posts before the 13th April 1933 and were not therefore eligible or the old scales of pay, whereas the juniors who were promoted had so acted and ad thus become eligible for the old scales. Government pointed out in G.O. No. 1053, ublic, dated the 12th December 1933, that the rules in G.O. No. 311, Public, dated 3th April 1933, did not bar the promotion to a post of an officer who was not eligible r the old scale of pay in that post and that promotions which were made in contravention f the provisions of the statutory rules were illegal and should therefore be set aside.

2. The Accountant-General asks whether the orders in G.O. No. 1053, Public, ated the 12th December 1933, should be applied retrospectively from the dates on hich the original vacancies occurred in the higher posts or whether they should have ffect only from the subsequent date when the reversions and the promotions in accordnce with the rules were actually ordered and the persons concerned began actually to ischarge the duties of the posts to which they were reverted or promoted. Promotions ade otherwise than in accordance with the provisions of statutory rules are illegal. hey should therefore be set aside and the persons promoted should be reverted with ffect from the date on which they had been promoted and the excess pay drawn by em should be recovered. Government will however consider on the merits of each se whether the recovery of the excess pay may be waived. The cases recommended y heads of departments should be submitted to Government in the administrative epartments concerned. Government do not however consider that the consequential acancies should be filled with retrospective effect from the dates of reversion of those ho had been promoted otherwise than in accordance with the rules. They therefore irect that they be filled only from the date on which the promotions were actually ade in accordance with the rules.

The draft 4 (1) notification in respect of all occupied plots coming within the submersion area in Nagodi, Kotcshirur and Hebbige villages of Coondapoor Taluk was submitted to Government in this office Ref.B1-7361-42 dated 27-5-43. It will be seen therefrom that 401 occupied sub-divisions with a total approximate extent of 435-60½ acres in those three villages have to be acquired under the Act and that Government will have also to acquire partial rights in four poramboke sub-divisions of an aggregate extent of 2.97 acres. Enquiry under section 5A of the Act will have to begin immediately after the publication of the 4 (1) notification and it will not be possible for the Revenue Divisional Officer, Coondapoor who has a fairly heavy division of three Taluks to do the functions of a Land Acquisition Officer in this case. The number of registered holders whose holdings have to be acquired is very large and if the Revenue Divisional Officer has to attend to the additional work involved in these land acquisition proceedings whic

may extend over at least a period of six months, it will not only come in the way of his normal duties and war work but will also tend to prolong all the stages of the proceedings. This can be rushed through with all expedition if a Special Officer is appointed to perform the functions of a Collector under the Act. The additional work involved during the 5A enquiry and subsequent stages of the Land Acquisition ----- proceedings in the above case will throw too much burden on the staff of the Revenue Divisional Officer which is already overworked and a special staff will therefore be necessary. I therefore propose that a Special Land Acquisition Officer for a period of six months with a staff of one lower divisin clerk, one typist and 2 peons may be sanctioned for the work and may be entertained immediately after the 4 (1) notification is published.

2. The above proposals involve one Dy. Collector in the new revised scale of pay, one lower division clerk and one typist on a scale of 30-3/2-55 and 2 peons on a scale of 12-17 all for a period of six months.

Sir,

Land Acquisition - (South Kanara) - Jog Falls Hydro-Electric ~~Sche~~ Scheme - Coondapoor Taluk - Nagodi, Koteshirur and Hebbige villages - Draft 4(1) Notification - submitted.

At the instance of the Government of Mysore, I submit a draft notification under Section 4(1) of the Land Acquisition Act in respect of all occupied plots in Nagodi, Koteshirur and Hebbige villages of Coondapoor Taluk, coming within the submersion area and proposed to be acquired in favour of the Mysore Government for the Jog Falls Hydro-Electric Scheme. I have also included in the draft notification four poramboke subdivisions in which Government will have to acquire partial rights.

P. 57-89

The total number of occupied subdivisions in all the three ~~vill~~ villages is 401 with an approximate aggregate extent of 435-60½ acres, and the total extent of Poramboke subdivisions in which partial rights are proposed to be acquired is 2-97 acres, as shown below:-

Koteshirur village	- 1-65 acres	- (1 temple).
Hebbige village	- 1-32 acres	- (1 temple, 1 basthi and one serpent shrine).
	2-97 acres	

Enquiry shows that the registered holders and other persons known to be interested in the plots proposed for acquisition under the above scheme have no objection to the acquisition of their holdings provided they are paid reasonable and adequate compensation. Some of the registered holders either state that the tiny bits in their holdings left out of acquisition will be useless to them on account of their separation and that they may also be acquired under the Act or claim damages for injurious affection. This point will be considered by the Land Acquisition Officer during 5 A enquiry, and if it is found that the acquisition of these tiny bits also is necessary, a supplemental draft 4(1) notification will be submitted in due course. Meanwhile, to expedite matters, I request that the draft 4(1) notification enclosed may be approved and its publication ordered.

P. 57-8

3. Joint survey work was completed early in the first week of this month, and valuation work is in progress. I have issued instructions to the Revenue Divisional Officer, Coondapoor and the Special Deputy Tahsildar to see that the valuation work is completed as expeditiously as possible. I shall submit a further report re. the estimated cost of acquisition soon. /A

4. Agreeably to Government Memo.No.5537-E/42-15, dated 13th May 1943, I have addressed the Superintending Engineer, Jog Power Scheme, Jog, to depute a subordinate of the Mysore Government for joint inspection before the end of this month and to intimate to me and the Revenue Divisional officer the date fixed.

5. In the draft 4(1) notification, I have mentioned the Special Deputy Collector, Land Acquisition, Coondapoor, as the officer to exercise the powers conferred by section 4(2) of the Act and to perform the functions of a Collector under Section 5 A. I am submitting separately through the Board of Revenue a report re. the appointment of a Special Deputy Collector and his staff for this work with requisite statistics.

[Accounts—Village—Non-Government areas—2-C—Maintenance.]

In the Punganuru zamindari of this district certain inams, e.g., artizan service inams, etc, have been resumed and some of them have been subsequently relinquished by the parties. The trees standing on them as well as those on lands bought in by Government under Act II of 1864 for non-payment of quit-rent on enfranchised inams, belong to Government and these lands are kept as assessed waste. Some of these trees have been granted on patta and the usufruct of the others is being put to auction year after year. In the Manual of Village Accounts prescribed for non-Government villages, communicated in B.P. No. 226, Revenue Settlement, dated 22nd August 1916, there is no account corresponding to 2-C account of the ryotwari tracts to show Government trees and topes of the class described above. If no such account is maintained it is not possible for the Revenue officers to verify correctly whether all the fruit-yielding trees are being auctioned every year and whether all the tree patta amounts are collected regularly, and there is every likelihood of a loss of revenue to Government owing to apathy or fraud on the part of the village officers.

The two different villages in which the stone maintenance work is reported to have been done by the Revenue Inspector, Conjeeveram on the same day are (1) Putheri, and (2) ~~Nickadipoor~~ Melkadipur which lie at a distan of about three miles from each other. The Revenue Inspector is reported to have repaired 31 stones in the former and 42 stones in the latter village on 13-2-30. My Inspecting Tahsildar states that this achievement is a physical impossibility even if the work were confined to a single village if the Revenue Inspector had done th repairs under his personal supervision as he is expected to do and verified the positions of the stones by measur in each case two or more converging lines. He considers that the Revenue Inspector has in this case, evidently taken credit for work done for him by others and that hi idea is to discourage such works shown on paper more to satisfy the jamabandy officer. One Special Deputy Tahsildar with a clerk and 2 peons to work under him and 6 Special Revenue Inspectors with a peon to work under each were deputed for the work in connection with acquisition of land for Hydro Electric Scheme, Jogfalls, Coondapoor-taluk. The specified area within which these officers were to work comprised only of 3 villages of Nagodi, Hebbige and Koteshircor. The nature of the work w the Special Revenue Inspectors are doing here is the same as that of a Revenue Inspector doing duty in a revenue firka, such as valuation of lands etc. As the Special Revenue Inspectors have to do outdoor duty am of opinion that they are entitled to fixed travelling allowance jus like a firka Revenue Inspector viz Rs.26-4-0 per month and their peons Rs.7-0-0 per mensem. I request to be informed whether I may gra them Fixed Travelling Allowance at the above rates. Exemption from th provisions of minimum touring may be sanctioned.

The Special Deputy Tahsildar cannot be considered to be on the same footing as that of an ordinary Deputy Tahsildar in charge of a su taluk for the purpose of the grant of F.T.A. at the rates specified in M.T.A.Rules i.e. Rs.22/- per mensem as the area in which he is working comprises only of 3 villages. But it is an unhealthy locality even though it is not specified as such in the rules. In consideration of the special work and the fact that the area is cut off from the Taluk Head-quarters by a distance of more than 50 miles, and that he has been deprived of the amenities of life, I hold that his case can be brought under Rule 12 of Part I of the M.S.P. and A. for the grant special pay. As the clerk and the peons working under him are subject to the same conditions their case may also be considered similarly. I recommend that they may be given special pay as follows:-

Special Deputy Tahsildar.	....Rs.36/-
Clerk	....Rs. 9/-
Peons at	....Rs. 2/-

2. The Board recommends the grant of F.T.A. at the rates specif below, to the six Revenue Inspectors and their peons employed in connection with the Hydro Electric Scheme referred to above.

Revenue Inspectors	...	Rs.26-4-0 each per mensem.
Peons	...	Rs. 7-0-0 each per mensem

They may also be exempted from the minimum period of touring.

In view of the unhealthy nature of the locality where the De his clerk and two peons have to work, they may be granted,

Sub: Land Acquisition - (South Kanara) - Coondapoor taluk - Jog Falls Hydro Electric scheme - Value of tree growth on unoccupied lands - Lump sum estimate.

Ref: Board's Ref.C.No.2945/42-6, dated 8-5-1943.

A lump sum estimate of the value of the tree growth on unoccupied (Government) lands in the three villages of Hebbige, Koteshiroor and Nagodi coming under the acquisition proposals is furnished below. The estimate is based on the valuation adopted by the Special Deputy Tahsildar and his staff. The Spl. Dy. Tahsildar has valued the tree growth at market rates. Owing to the situation of the villages over the Ghauts far away from marketing centres the trees have no saleable value and have therefore not been valued at the usual seigniorage rates. I have accepted the lump sum estimate of the Spl. Dy. Tahsildar for the reasons stated by him in his report Ref.C.No.1-43 dated 2-7-43 (paras 2 to 5) extract of which is enclosed.

2. The total tree value is Rs.17615-0-0 and land value in respect of wet and garden government lands comes to Rs.667/-.

2. The plots proposed to be acquired are situated on the summit of the western ghauts as a protrusion into the Mysore Province. The nearest market for the sale of timber and firewood of these villages is Vandse which is about 32 miles. The only means of transport is by double bullock cart and on account of the difficulty in getting down the ghaut road to a length of about 9 miles the cart hire to Vandse is stated to be in the neighbourhood of Rs.10. The current market value of firewood at Vandse is in the neighbourhood of Rs.5/- per double bullock cart load. Hence the cutting and removal of fuel from these villages is not profitable. So the demand if any is restricted to the local needs. I have therefore valued fuel at the flat rate of annas 4 per double bullock cart load as against the seigniorage rate of annas 10 for group II Villages like Koteshirur and Hebbige and annas 8 for group III villages like Nagodi. I consider the flat rate of annas 4 per double bullock cart to be the fair price.

3. As regards timber also, on account of the difficult transport conditions there is not much demand. Hence even trees of timber species unfit for timber have been valued as fuel. Even in the case of timber trees I have based my valuation on mainly on their girth species and the market rate prevailing in the locality.

4. There are number of sandalwood trees in the Government land. The value of these trees mainly depends on the heartwood they contain. But it cannot be ignored that even small trees are likely to grow without any expenditure to incur, so that their prospective value justify consideration. I have therefore valued sandalwood trees mainly on the basis of the quantity of heartwood they are likely to contain taking into consideration their prospective value

5. The seigniorage value of bamboo is said to be Rs.3/- per hundred. The market value is Rs.25/- at Vandse and the cost of cutting and transport of 100 bamboos is in the neighbourhood of Rs.20/- . There is thus a net margin of Rs.5/- per hundred. I have therefore valued big size bamboos at Rs.3/- per hundred and smaller one at Rs.2/-. The total value of treegrowth works out at an average of approximately Rs.20/- per acre.

READ—

Government Order No. P. W. 2383-96—S., dated the 27th October 1941, sanctioning an estimate amounting to Rs. 280·5 lakhs for the first stage of the Jog Power Scheme to generate 32,000 E.H.P.

2. Un-official Note No. 356--K. S. S., dated the 2nd September 1942, from the Chief Engineer of Mysore, forwarding, for sanction, a modified estimate amounting to Rs. 358·0 lakhs for the project prepared in consultation with the General Superintendent, Jog Power Scheme, for (i) generating a larger block of power of 64,000 E.H.P. found necessary to meet additional demands for power and (ii) execution of all the Civil Engineering works required for generating 128,000 E.H.P. eventually, so that by adding only the hydraulic and electrical equipment as and when found necessary, the project might be developed in due course to its full capacity.

3. Letter No. 2483, dated the 8th January 1943, from the General Superintendent, Jog Power Scheme, forwarding a statement showing the lumpsum provisions made for the hydro-electric and electrical equipment costing Rs. 1,61,91,000 included in the modified estimate and explaining the necessity to revise the provisions as per detailed estimates of cost of the materials and equipment prepared on the basis of the weights and accepted rates at which orders would be placed with the several firms.

ORDER No. P. W. 8513-26, DATED BANGALORE, THE 19TH MAY 1943.

An estimate for Rs. 280·5 lakhs was sanctioned for the first stage of Jog Power Scheme to generate 32,000 E.H.P. in G. O. No. P. W. 2383-96—S., dated 27th October 1941.

2. A statement of new demand for power anticipated on essential developments by 1943-44 was prepared by the Chairman of the Mysore Iron and Steel Works, at the end of November 1941. From this, it was seen that the total additional power exclusive of the 3,750 K.W. earmarked for Bombay Presidency as per Agreement would be 23,000 K.W., bringing up the total power to be generated at Jog to 26,750 K.W. At present, Sivasamudram and Shimsha power stations are being worked to produce additional power to meet the increased demands by issue of extra water from the storage at Krishnaraj Sagar. This arrangement is seriously interfering with the full development of irrigation under Irwin Canal and it is necessary that this water has to be released for irrigation by transferring the additional load of 13,000 K.V. at Sivasamudram and Shimsha to the Jog Power Scheme. This brings up the total requirement of power production at Jog to 39,750 K.V. or 53,000 H.P.

3. It was therefore considered necessary to provide for a larger block of power than was originally contemplated. A modified estimate was accordingly prepared for generating 64,000 E.H.P., the Civil Engineering works being once for all executed for the final stage of 1,28,000 E.H.P., the hydraulic and electrical equipment for generating additional power being added on as and when fresh demand for power arose.

4. The modified abstract estimate for Rs. 358·0 lakhs was scrutinised and approved at the joint meetings of the Civil Engineering and Electrical Engineering Committees which met at Jog on 7th and 8th June 1942. Pending sanction to the detailed estimate, permission was given by Government in P. W. No. 1745, dated 27th August 1942, to base the audit certificate on the modified abstract estimate for

Rs. 358·0 lakhs and the works were pushed through. It was found necessary that the modified estimate prepared with reference to the final design had to be further revised on the basis of the accepted rates for electrical machinery and material for which orders were placed with several firms. As per modified estimate for Rs. 408·7 lakhs as finally revised, the cost of Civil Engineering works amounts to Rs. 1,96,47,400 and that of the Electrical Rs. 2,12,22,600, resulting in a net excess of Rs. 1,28,20,000 over the original sanctioned estimate for Rs. 280·5 lakhs. The increase in the cost of the project is due to the following reasons :—

(1) Increase in the number of generating units from 2 to 4, transformers from 2 to 5 and penstock pipes from 2 to 4.

(2) Extraordinary rise in the price of hydraulic and electrical equipment due to war conditions.

(3) Increase in the switch gear equipment to suit the capacity of the station.

(4) Conversion of the existing 25-cycle power of the Cauvery Power Scheme to tie it with the 50-cycle power of the Jog Power Scheme to be in accordance with the modern practice.

(5) Increase in establishment charges due to the constitution of a separate Audit Office and Land Acquisition Office and provision of extra establishment under medical and sanitation and for erecting electrical machinery.

5. The excess in the Civil Engineering estimate is due to the construction of the storage reservoir at Hirebhasgar and of other works at Jog to meet the full requirements of the final stage of the scheme.

6. A lumpsum provision of Rs. 10·5 lakhs has been made in the estimate for Hirebhasgar Dam for acquisition of lands that come under submersion. The acquisition proceedings having been just taken up, the detailed estimate for this sub-head should be submitted on the basis of the awards that may be passed on the cases now under consideration.

Vide 'A' in 10·75 ante

7. Government are pleased to accord sanction to the modified comprehensive estimate for Rs. 4,08,70,000 for the several items of the project as shown in the Annexure under "38-A. Hydro-Electric Works, 1. New Power Installation and Electrification Projects—(3) Jog Falls Project."

8. The General Superintendent, Jog Power Scheme, is requested to pay special attention to the marketing of power for industrial purposes in and outside the State, so that the scheme may pay its way and also fetch a favourable return on the capital investment when the Jog Station is expanded to its full capacity.

M. NARASIMHAIYA,
Secretary to Government,

The Special Deputy Collector to whom the Special Deputy Tahsildar had sent his report considers that no higher rates of rental are called for in individual cases as all the lands classified as assessed waste wet lands and assessed waste garden lands which were once held on ryotwari tenure were subsequently relinquished by the ryots and are not fit for cultivation being either overgrown with forest growth or devoid of yield. I, therefore, suggest that the rate already recommended in my Ref.B1.7361/42 dated 9-4-1943 may be adopted.

In continuation of this Govt's letter quoted above, I am directed to state that the value of tree growth on all unoccupied Govt. lands is

para 2 of Collr's letter at p. 85 C.F. estimated at Rs. 17,615/- This valuation is based upon market rates (which are lower than) the usual

para 1 of Collr's letter at p. 85 C.F. seigniorage rates as the villages in which the trees lie are situated over the Ghats far away

from marketing centres.

2 The rentals on assessed unoccupied Govt lands (including wastes) are fixed at the rates of assessment now prevailing without being subject to revision at future resettlements.

3 I am to request that a specific reply may be obtained from the Govt of Mysore accepting the rates of rental mentioned and the rates of royalty and the value of tree growth contained in this Govt's letter dated 24-5-1943 quoted above paras 1 and 2 above.

LAND ACQUISITION: (South Kanara) - Jog falls Hydro Electric Scheme -- Draft declaration under section 6 of the L.A.Act.

R e f: Board's Ref.No.I.74-44 dated 7.2.44.

The several bits proposed to be acquired in my letter Ref.No.B1-7361-42 dated 18.12.1943 do not lie within the boundaries of the fields already notified and under section 4 (1) I am therefore submitting a supplemental section 4 (1) notification in respect of these bits and request that the same may be got published in the Fort St.George Gazette. The Special Deputy Collector now reports after local inspection that S.Nos. 77/2B and 77/3A of Kotashirur village which were original proposed to be acquired as severed bits fall outside the contour line of the submergable area and are high ground with houses on them. As it is not considered necessary to acquire these plots they have been omitted in the supplemental section 4 (1) notification submitted herewith.

No compensation is payable in respect of S.No. 5/1 of Kotashirur village which has been proposed to be withdrawn as the plot was bought in Government for arrears of land revenue before the publication of section 4 (1) notification

The Mysore Government have agreed to pay the cost of litigation if any arising out of acquisition of private rights in land in addition to the cost of the acquisition including any enhanced compensation that may be awarded by a Civil Court please see Board's Ref.No.B.2945-42-5 dated 27.4.43.

A notification under Section 4(1) of the Land Acquisition Act in connection with the acquisition of lands for the Jog Falls Hydro-Electric Scheme was published at pages 633-640 of the Fort St. George, Gazette, dated 15-6-1943. An errata to this notification was published at page 823 of the Fort St. George Gazette, dated 7-9-1943 and an erratum to the errata notification was published at page 892 of the Fort St. George dated 5-10-43. In response to the notices issued by the Special Deputy Collector under Section 4(1) and 5(a) of the Land Acquisition Act, 22 objection petitions were received by him. An extract from the Special Deputy Collector's report under Section 5(a) of the L.A. Act dealing with the several objections is enclosed (in duplicate).

2. The Special Deputy Collector has recommended the acquisition of the following bits of lands which will become useless to the owners for profitable cultivation on account of the acquisition of the remaining portions of their lands.

No fresh notification or declaration is necessary in r of these bits of lands according to the instructions in para Chapter XVIII of the L.A. Manual. Sanction may therefore be accorded for the acquisition of these bits in conformity with the instructior in the last sentence of the paragraph quoted above.

3. S.No. 3/1 of Koteshirur village has been brought in by Goverr ment for arrears of Land Revenue. As it is no longer a warg land, it is not necessary to acquire this plot. A withdrawal notificatior (in duplicate) in respect of this field is enclosed for approval and publication.

4. The total value of the lands, etc., proposed for acquisition according to the preliminary valuation comes to Rs.1,11,722-11-4 as given below:-

It is true that the Bennette Road, by the side of which S.No. 77 of Koteshirur is situated, is rendered useless for vehicular tra[illegible] since a portion of the road both on the eastern and western sides [illegible] comes under water. Direct communication to Hosanagar in Mysore [illegible] Territory is thus cut off. A greater portion of the road to the [illegible] west of S.No. 77 does not come under water, and hence the land left unacquired has still an access. The petitioner seems to aim at [illegible] rious affection when he says that the whole locality will become un[illegible] healthy on account of water logging. The disadvantage does not op[illegible] exclusively on him. It affects likewise a great many other ryots i[illegible] the Hannar locality. The petitioner owns other lands, viz., S.Nos. 85/13, 85/6, 85/8 of Koteshirur in the locality. He has to attend [illegible] the cultivation of these lands, if he does not choose to alienate [illegible] whole lot. He can therefore by the way look to the cultivation of [illegible] portions left un-acquired in S.No.77. No compensation is payable [illegible] unless the remaining property is injuriously affected or the earni[illegible] of the petitioner of the land acquired are injuriously affected by the acquisition. The petitioner owns about 42-40 acres of land in [illegible] 77 of Koteshirur village of which an extent of 27-26 acres is e[illegible] under the submergeable area. He will still be left 15-14 acres o[illegible] S.No. 77/4, 77/5, 77/9, 77/10 are "Bettu" lands, i.e., situated [illegible] higher level and do not fall under the contour line of the subme[illegible] Similarly 77/7B, 77/2B and 77/3A. But the tiny little bit S.No.77/[illegible] is rendered inaccessible for cultivation. Though S.No.77/2 measu[illegible] [illegible]-06 acres in extent, I consider that it is still too small a piece [illegible] and for profitable cultivation. It may be quite useless to the co[illegible] I therefore recommend that S.Nos.77/2B and 77/3A be also acquired. [illegible]ase this extent of 1-26 acres is also acquired he will still be le[illegible] 15-14 minus 1-26) i.e., 13-88 acres. The fileds S.No.85/13 measuri[illegible] [illegible]-46 acres, S.No.85/8 measuring 2-60 acres, S.No.85/6 measuring 1[illegible] [illegible]cres which are owned by the petitioner adjoin his dry field S.No.6[illegible] [illegible]hich he says is a kumki land to S.No. 77. To the east of this S.[illegible] [illegible]7 lie the lands left unacquired, i.e., S.Nos.77/7B, 77/4, 77/5, 9 [illegible] [illegible]0. This left over portions including S.Nos. 67, 85/6, 8, 13 could [illegible]orm one holding. The bit that is compulsarily taken does not in a[illegible] [illegible]ay depreciate the value of the rest. So there is no necessity to [illegible]equire either S.No.67 or 77/7B and 77/4, 5, 9 and 10. The village [illegible]fficers testify to the fact that the petitioner reclaimed S.No.77/[illegible] [illegible]nd made it fit for cultivation. But they do not agree with the [illegible]etitioner that he spent over Rs.2000/- in reclaiming it. All these [illegible]acts were considered by the Special Deputy Tahsildar who has valued [illegible]e land at Rs.200/- an acre (wet portion) and Rs.30/- an acre of dry [illegible]nd. The valuation made by the Deputy Tahsildar is reasonable, and [illegible] further documentary proof is made available by the objector, at t[illegible]

ion will be given.

S.Nos. [illegible] 247/4B; 85/12; 78/1, 2B, 3; 79/ 85/11, 3, 5; 198/2; 57/1, 4; 58/4; 59/1 & 2; 60/8, 7 & 9 of Heb village: - The petitioner has a tiled house in S.No.244/1 whi costs more than Rs.2500/- and the Collector was pleased to addre the Executive Engineer, Calicut Division to have it valued. S. 244/1A measuring 0.01 acre is proposed to be left unacquired. tiny little bit will not be useful to the petitioner in any way I consider that this bit also should be acquired.

The petitioner also contends that the Special Deputy Teh has undervalued S.Nos.5/6, 5/7, 247/B and 85/12 and expects Rs.1 an acre in respect of S.No.5/6 as it is an arecanut garden and R an acre for the other fields. S.No.5/6 of Hebbige has been valu by the Special Deputy Tahsildar at Rs.500/- an acre as it is a g with only 170 bearing arecanut trees. S.No.5/7 is a fallow wet land and has been valued at Rs.100/- an acre. S.No.85/12 and 24 are classed as dry and the valuation is fixed at Rs.50/- an acre. valuation is quite resonable and if further documentary proof i available at the time of award enquiry, due consideration will given and compensation amount enhanced if necessary. The other are as stated by the petitioner, held under usufructuary mortga and his claims will be considered at the time of passing award.

2. Petition of B.V.S. Chennaveerappa Shetty.

The petitioner claims that the severed portions in S.Nos. nd 1/1 of Koteshirur village, viz., (6/3B measuring 0.05; 1/1 easuring 0.39 acre) might also be acquired as they are too smal rofitable cultivation and that he should be compensated at the f Rs.500/- an acre of wet land and at the Rs.100/- for dry land. eft over bits are too small and they can conveniently be acquir .No.1/1 is a dry field and S.No.6/3 is a wet land. The Deputy ahsildar after taking into consideration the recent alienation and in the locality, the yield, the present and past prices of as valued the wet lands at Rs.165/- an acre, and dry lands at 20 he assessment. The valuation is reasonable and acceptable. ands of this petitioner are being acquired.

3 Petition of Linganakai Subraya. }
20 Petition of Mani Krishnaya. } All of Hebbige villa
12 Petition of Puttayya Gowda. }

The petitioner Linganakai Subraya as a trustee of the Ve meshwar Temple, claims a compensation of Rs.25000/- for the tem uilding and its appertainances, the removal of the idols and -- nstallation of the idols in another locality. Mani Krishnaya a elderly man appointed by the villagers in the locality claim ompensation of Rs.12,000/- for the Temple building of Gutherma thana and its appertainances and another Rs.2000/- for installat eremonies. The third petitioner Puttaya Gowda represents that Digam asti (Jain temple) may be constructed at Government cost. ll these temples value more than Rs.2500/-, the Collector was ple o address the Executive Engineer to get the temples valued.

4. Petition of Bantodi Ramachandraya of Hebbige.

The petitioner requests that the portions left unacquired i .Nos.82/7A; 82/7B; 83/6; 82/3 and 82/12 of Koteshirur village be also acquired as they are not useful for profitable cultivation. detailed account of the portions acquired and left over is gi below:--

extent and the petitioner cannot profitably cultivate them. recommend that these bits may also be acquired. S.No.82/7A2 th small in extent forms a contiguous plot with S.No. 82/7B1 thich also under the holding of the petitioner. S.No.82/3B is almost tact but for the 2 cents of land which is being acquired in one corner. S.Nos.82/7A2; 82/7B1 and 82/3B need not be acquired.

5. Petition of Kondle Ranjaya

The petitioner says that the left over portion in S.No.25/6 of Hebbige village may also be acquired. S.No.25/6 does not come under water spread area at all and it is not proposed for acquisition either. The petition deserves no consideration.

No. 6. Petition of Halaya Gowda of Hebbige village.

The petitioner states that the portions left unacquired in S.Nos.60/1, 2, 3, 4, 5, 6, 10, 11, 12; 12/7, 8; 63/1, 2, 3, 4 and 64/1 and 2 of Hebbige village should also be acquired and compensation amount in respect of S.Nos.60/3, 10, 11, 12 and 63/2, 4 should be paid to him as he has been in long enjoyment of the lands. All the above survey fields are being acquired in full and nothing is left unacquired. Proper precautions will be taken while disbursing the award amount to the rightful owner.

Nos. 7 and 8. Petitions of Hurli Kollappa Gowda.

The petitioner filed his second objection petition on behalf of his minor sons Rudrappa and Gangadarappa. His contentions in both the petitions are that the portions left unacquired including S.No.55 of Hebbige which is rendered valueless should also be -- acquired. The fields that are proposed to be acquired and portions left unacquired are as follows:-

S.Nos.7/7, 7/2, 8/7, 2/6, 13/5, 5/8, 15/3 are being acquired, i full and nothing is left over as represented by the petitioner. S.N 58/2B, 58/8B, 58/7B are being acquired leaving severed bits S.Nos. 58/2A, 58/8A and 58/7A. These severed bits will not be of any use to the owner as they remain isolated between the submerged area and -- Government Assessed waste with thick tree growth (S.No.56). I recommend that these bits may also be acquired. Out of S.No.25/1, a portion measuring 2-08 acres denoted as S.No.25/1B is proposed to be acquired leaving a narrow strip of land 24 links wide and 429 links long and denoted S.No.25/1A. I recommend that this narrow strip of land measuring 0-05 acres may also be acquired. Again out of S.No.27/ a portion measuring 0-33 acres denoted as S.No.27/2B is proposed to be acquired leaving a portion of 0-27 acre. (S.No.27/2A) - I do not think that this bit will be of any use to its owner. It may also be acquired. S.No.26/6 and 26/7 are contiguous and belong to the petitioner. S.No.26/6 is classed as wet II and 26/7 as garden. Out of S.No.26/7 an extent of 0-55 acre denoted as 26/7B and 0-14 acre of land denoted as S.26/6B out of S.No.26/6 are proposed to be acquired. The -- portion left unacquired, viz., S.Nos.26/6A - 0-16 acres; and 26/7A - 0-57 acres, still form a contiguous plot. The petitioner has several land properties in the same locality and he will not be injuriously

affected by the acquisition of these small bits (S.Nos.26/6B and 26/7B). Hence these left over portions S.Nos.26/6A and 26/7A need not be acquired. S.No.51/1 of Hebbige village, is classified as wet II. This field is cut into 3 portions, viz., S.Nos.51/1A, 51/1B, 51/1C and the central portion S.No.51/1A measuring 6-25 acres is proposed to be acquired. The petitioner contends that the -- portions left unacquired, viz., S.No.51/1B measuring 1-19 acres and S.No.51/1C measuring 0-07 acres, will not be useful for profitable cultivation and that therefore they may also be acquired. He also contends that the adjacent garden land S.No.55 measuring 0-30 acres will get depreciated in value on account of its isolation and -- requests that it should also be acquired. The petitioner has still lands in the same locality which do not get submerged. The re- maining land, i.e., S.No.51/1B measuring 1-19 acres S.No.55 and the other fields like S.Nos.51/3, 51/5, 68, 49, 52/1, 5 and 8 in the same locality, could still form one holding. The acquisition of S.No. 51/1A does not in any way depreciate the value of the rest. The small bit S.No.51/1C will ~~along~~ alone be isolated and I therefore recommend that it may be acquired. The petitioner's anxiety to get compensation of Rs.3000/- for an acre of garden land and Rs.500/- for an acre of wet land is nothing but greediness on his part. The -- valuation made by the Special Deputy Tahsildar is reasonable. Great attention will be paid at the time of award enquiry.

9. Petition of Rudraya alias Manjayya Gowda of Hebbige.

The petitioner represents that the severed portions, i.e., S.No. 1A and 25/4A of Hebbige village measuring 0-32 acres and 1-23 acres respectively should also be acquired as they will not be useful to him. It of S.No.25/4, a small extent of 0-03 denoted as S.No.25/4B is being acquired. This is in a corner and I fail to see how the owner is -- affected by this acquisition. There is no substantial ground to acquire entire sub-division. This need not be acquired. Out of S.No.25/ portion of 0-20 acres is proposed to be acquired. This portion is sub-divided according to the contour line marked by the Mysore Government and it is very doubtful the maximum water level will ever reach the severed bit 28/1A. The petitioner has his old family house in S. 28/1A and his anxiety seems to be to get a decent amount by way of compensation both for the site and for the old house. This field (S.No. /1A) need not be acquired.

10. Petition of Jattayya Gowda of Hebbige village.

The petitioner requests that the portions left unacquired in S.No. of Hebbige may also be acquired. The lands proposed for acquisition and the severed bits left unacquired are as given below.

The portions left unacquired in S.No.139, viz., 139/5B, 11B and 6B form one contiguous block and need not be acquired. The other bits S.Nos.105/2A, 121/3A, 121/4A, of Koteshirur village are tiny and not useful to the owner for profitable cultivation. They may be acquired.

o. 13. petition of Belur parameshwaraya of Hebbige.

The petitioner requests that severed portions in S.Nos.84/1, 86/2, 87/1 and 247/5 of Hebbige village might as well be acquired as they are very small for profitable cultivation.

The tiny little bits left over now denoted as S.Nos.84/1A, 8 2A1, 87/1A, 87/2A, are really very small and the owner cannot p ssibly cultivate or use them otherwise. They may also be acqui S.No.247/5B newly formed out of 247/5 is a back-yard of the house s uated in S.No.86/2 and its extent is about 0-01. It is not -- d rable to acquire the left over portions S.Nos.247/5A which m 0-3 acres. The petitioner's heirs have also been brought on re after enquiry as pointed out in the reconciliation statement.

14. petition of Bavappa Indra.

The petitioner, a Jain purohit, claims that the portions unaquired in S.Nos.220/2, 78/1, 79/2, 198/2 of Hebbige village S.N108/1, 2 and 107/1 of Koteshirur village together with his h ncu and his private temple situated in S.No.220/2 of Hebbige v should be acquired as most of the lands in his holding are being acqued.

The formation of a sub-division in S.No.78/2 of Hebbige l narrow strip of land denoted as S.No.78/2A measuring 0-05. Th ractically of no use to the ~~new~~ owner. Similarly S.No.108/1A o otoshirur is left unacquired. Both these may be acquired. The ioner has his house and private temple in S.No.220/2A of Hebbig illage. It is not true that this petitioner looses all his lan n extent of 12-40 acres will still be left over to him. He can urchase some other land with the compensation amount he gets.

therefore necessary that all the other severed bits noted above should be acquired.

15. Petition of Padmamma, wife of petitioner No. 14.

She states that the unacquired portions in S.No.107/2B of Koteshirur should also be acquired. Extents of 0-46 acre and 0-69 acre denoted as S.Nos.107/2A and 107/2C are proposed to be acquired, in this field. There are some shop buildings of the Gujre pete in S.No.107/2C. Since this bit is valued high on account of the buildings the petitioner seems to think that she could get high rate of compensation amount by way of urging the acquisition of left over bits. The petitioner can very well convert this into a paddy flat after the -- acquisition is completed. I do not therefore recommend the acquisition of S.No.107/2B also. As regards the other field mentioned in the objection petition (S.No.106/5 of Koteshirur) the whole field is being acquired.

16. Petition of Durgi Mai living at Isur, Shikarpur Taluk, Shimogga District.

The petitioner represents that the portions left unacquired in S.Nos. 26/1, 2, 5, 9 and 18/1 of Hebbige village may also be acquired. She further states that since all her properties are being acquired and since she is already living at Isur in Shikarpur Taluk, S.No.17/1 of Hebbige village in which she has a house of her own should also be acquired. The portions left unacquired measure as follows:-

S.No.26/1A	out of	S.No.	26/1	-	0-15	)
" 26/2A	"	"	26/2	-	0-03	)
" 26/9A	"	"	26/9	-	0-10	) All of Hebbige village.
" 26/5A	"	"	26/5	-	0-12	)
" 18/1A	"	"	18/1	-	0-15	)

These tiny bits will be of no use to the owner. All these may be acquired. She has already left the village for good to a village in Mysore State. Except that she is a bit avaricious to get some more compensation even for S.No.17/1 of Hebbige, which does not come under the submergeable area, there is no case for acquiring her house properi also. She can as well alienate it to her neighbour, the owner of S.No. 17/2. I do not recommend the acquisition of S.No.17/1, of Hebbige -- lage.

17. Petition of Potail Narnappayya of Hebbige village.

The petitioner urges that the left over bits in S.Nos.247/6 of Hebbige village; S.Nos.22/3 and 22/2 of Koteshirur village which do not come under the submergeable area, be also acquired. Out of S.No. 247/6 of Hebbige village about 0-03 acre of land which is denoted as S.No.247/6B is proposed to be acquired. This portion forms the backyard of the existing houses in S.No.86/2. The portion left unacquired is almost a hillock with tree growth. This need not be acquired.

Out of S.No.22/3 of Koteshirur village a portion of 1-42 acres denoted as S.No.22/3B is proposed to be acquired. An extent of 4-83 acres (22/3A) is still left. S.No.22/2A does not come under the -- water-spread area. The petitioner can easily cultivate S.Nos.22/2 and the severed bit S.No.22/3A, which is nearly 5 acres in extent. They need not be acquired. The names of the heirs of the petitioner have also been brought on record after enquiry as explained in the reconciliation statement.

No. 18. Petition of Rysicel Venkatramanayya.

The petitioner urges that the severed bits in his patta field No.19 of Koteshirur village may also be acquired as they are either rendered useless for profitable cultivation or rendered inaccessible. The formation of S.No.19/2, which is proposed to be acquired cuts the field into 3 detatched plots, viz., 19/1, 19/3 and 19/4. S.No.19/1 -- measuring 0-04 acres is rendered very small, isolated and inaccessible. It has therefore to be acquired. S.Nos.19/3, and 19/4 measuring 0-39 and 1-58 acres respectively still form contiguous blocks of paddy flats with S.No.18. They need not be acquired.

No.19. Petition of Padmaya Gowda.

The petitioner holds that Jattaya Gow
no right over the properties, viz., S.Nos.82,
82/4A, 82/10A of Hebbige village and he is n
of the minors Padmamma and Manjamma and that
against Jattayya Gowda (O.S.No.50/1943 on th
Munsiff, Coondapur). The petitioner's name
interested person in the Draft Declaration, and necessary action will
be taken at the time of the passing of the award.

No.21. Petition of Vishwanatha Thimmaya of Nagodi.

The petitioner urges that the portions left unacquired in S.Nos.
102/10, 102/8, 120/5, 140/3, 139/2, 140/9 of Koteshirur and S.Nos.141/5,
141/11, 139/9 of the same village be also acquired. S.Nos.141/5 and
11 and 139/9 of Koteshirur do not at all come under the contour line of
the submergeable area. His anxiety is that all good for nothing
should be acquired. As the contour line is far away from these fields,
they need not be acquired. S.Nos.102/10, 102/8, 120/5, 139/2 and 140/3
are being acquired in full. Nothing is left over. Out of S.No.140/9
a portion of 0-21 acres leaving a tiny bit measuring 0-05 acres (denoted
as 140/9B) is being acquired. This severed bit is rendered useles
will not be of any use to the petitioner. I recommend that this b
S.No.140/9B may also be acquired.

No. 22. Petition of Seetharamayya of Hosanagar.

The petitioner holds that the properties belonging to Yerma
Rao (S.Nos.244/1 and 2 of Hebbige village; 77/7 of Koteshirur vill
which are now being acquired) were purchased in the name of the
Madhwa Rao, when the petitioner and Madhwa Rao jointly carried on
from 1944 to 1936 and 1937 at Hosanagar, and that he is entitle
the compensation amount due on the properties to be acquired. Du
enquiry was made in which the Counter petitioner Yermal Madhwa Rao
conceeded that the petitioner has a right to the house property in
244/1 and 2 of Hebbige village only. He also admits that certain
perties in Hebbige, Koteshirur and Nagodi villages were purchased
the income of their joint concern, that an arbitration between the
made sometime back and that properties were already apportioned wi
a registered deed. The petitioner claims that since he was no
possession of the properties according to the terms of arbitra
pp- partition had not been given effect to and has no legal bi
parties not coming to a definite understanding, are claiming i
for the compensation amounts consequent on the acquisition of
properties. The petitioner claims ½ and the counter-petitione
whole. It is therefore necessary to include the petitioner's
interested man in the Draft Declaration. The question of the
still be further thrashed out at the award enquiry and proper
be taken. Madhwa Rao's heirs have also been brought on record
enquiry for the reasons stated in the reconciliation statement

2. From a perusal of the acquisition records and the eyesket
is seen that many other small bits left unacquired have also to be
as these portions will not be useful to the owners for profitable
vation. The owners have not preferred any objection petitions so
probably out of ignorance. The following are such cases:--

(2) S.Nos.102/7 - 0.92 acres. " 117/1B- 1.57 " " 6/3A- 9.12 "	(2) Correct extents as per sub-divn. statements are noted. S.Nos.102/7 - 0.96 acres. " 117/1B - 1.52 " " 6/3A - 9.42 "
(3) S.No.3/1,measuring 2.02 acres belonging to Sallomane Rama Bhatto.	(3) This field has been bought in by Govt.for arrears of land revenue as per Taluk III P.R..1-90-51 d/ 31-8-1942. As it is no longer a patta land, it is omitted in the draft declaration. A withdrawal notification under Section 48(1) of the Act is enclosed.
(4) S.No.106/7 - Abdul Rahiman Saheb.	(4) Abdul Rahiman Saheb is now found to be a mulgenidar and so the word 'mulgenidar' is brought on record.
(5) S.No.103/2, 101/1, - same as in S.No.106/8.	(5) The name of Sheik Abdul Rahiman Sahib (mulgenidar)has been broug on record as a result of the 5-. enquiry.
(6) S.No.82/1 - (1) Bantodi Rama-chandraya (2) Yermal Madhwaraya)	(6) Since Yermal Madhwaraya is found be a usufructuary mortgagee his name is brought on record as such
(7) S.No.172/2B -(1)Bonnatto Kolla Naika (2) Manja, (3) Manna.	(7) The name of Kolli, mother of No. is brought on record as she is also said to have a claim.
(8) S.No.6/1 - belonging to Chenna Veerappa Shetty.	(8) Since the correct name of the pattadar was learnt to be Chenna Veeraya Shetty at the 5-A enquiry it is now brought on record correctly.
(9) S.Nos.121/11A; 120/2.	(9) The notation has been changed into 139/11A and 120/2A respectively as per the errata published at page 823 dated 7-9-1943 (Fort St George Gazette).
(10) S.No.77/2A - Yermal Madwaraya.	(10) The registered holder Yermal Mad-waraya belongs to an undivided family governed by Mithakshari law of succession. Consequently, the names of his sons, brothers and their children and his brother-in-law (one Sitaramaya)as he claimed a right over the properties alleging that they were bought while himself and the owner were carrying on business as partners have now been brough on record.
(11) S.No.116/6A - belonging to Narnappaya.	(11) The registered holder Narnappaya has a minor son Thimmappaya, his name is also now brought on record
H E B B I G E V I L L A G E.	
(1) S.No.7/4 belonging to same as in S.Nos.2/2 and 4/2.	(1) 5-A Enquiry show that minors Rudrappa and Gangadarappa by guardian Kollappa Gowda, minor Hallamma by guardian Chennamma have also interest and so their names are put on record.

(2) S.No.7/5 belonging to Ramakrishnaya (dead) Regtu.holder -Devappaya minor by guardian Gangamma. ..	(2) Mukamma widow of Seshappaya also found to be having a claim. Her name is brought on record now.
(3) S.No.57/1B-belonging to (1) Kanna Naika (2) Baira Naika (3) Appi (4) Chancha, minor by guardian father No.3 and (5) Madhwaraya. ..	(3) Since the last mentioned Madhwa-raya is found to be a mortgagee the word 'mortgage' is brought on record now.
(4) S.No.60/3 belonging to Manjamma and and 3 others. ..	(4) Manjamma is found to be the proper person as per 5-A enquiry,-her name is inserted for Man--jamma.
(5) S.No.166/3B - belonging to same as in S.No.166/1B & (3) Subraya (4) Shivaramaya, minor by guardian No. 3, (5) Venka Bhatta minor by guardian mother Mukamma (6) Linganka Subraya (7) Payappa Gowda & (8) Urche Devappaya. ..	(5) Of the interested persons, No.(7 Payappa Gowda is named as Payap Indra. This was found out at the time of 5-A enquiry. The correct name 'Payappa Indra' is not brought on record.
(6) S.No.244/1B belonging to (1) K.Sita-ramaya (2) Yermal Madhwaraya. S.No. 5/6 - belonging to Madhwa-raya.	(6) Please see remarks for both fields against item 10 of Kote-shirur.
(7) S.Nos.9/1A; 193/3B; 82/1A; 82/2A; 82/3A and 82/5B.	(7) The notation of all these field has been changed into S.Nos.9/1B 193/3A; 82/1B; 82/2B; 82/3B; & 82/5A respectively as per the errata published at page 823 dated 7-9-1943 of the Fort St. George Gazette.
(8) S.No.84/1B etc., of Hebbige Village belonging to Belur Parameshwaraya.	(8) At the time of enquiry under Section 5-A, it was brought to notice that Parameshwaraya being a member of an undivided family Governed by Mitakshari Law of inheritance, his three sons have got equal shares in the property so, their names have been now brought on record.
(9) S.No.82/1B etc., of Hebbige belonging to minors (1) Padmamma (2) Manjamma by guardian Karkemuli Jattaya Gowda.	(9) Padmaya Gowda contended that Jataya Gowda is not the real guardian for the minors as he is distantly related and that he has filed a suit in Dt.Munsiff's Court to appoint him as the legal guardian. He further claimed a ~~change~~ share in the property. Hence, pending decision, of the suit, his name ~~name~~ is brought on record as an interested person.
(10) S.No.86/2B of Hebbige Village belonging to Narnappaya.	(10) Please see remarks against item (11) of Koteshirur.
(11) (a) Errata to the notification under Sec.4(1) of the L.A.Act as amended by the L.A.Act (Amendment) XXXVIII of 1923 published at page 823 of the Fort St.George Gazette d/7-9-1943. Koteshirur - S.No.82-8A.	(11) (a) In the errata Notification instead of S.No.82/6A, S.No.82/8 has been published erroneously for which an erratum has been issued on 19-9-43. Its publication in the Fort St.George Gazette is awaited. In the draft declaration S.No.82/6A has been adopted.
(b) Hebbige - S.No.275/6 appearing against S.No.27/1.	(b) This was a mistake for S.No. 27/5 & 6. An erratum has been issued on 19-9-43 the publication of which is awaited. In the draft declaration, the correct No. has been adopted.
(c) S.No.4/1 of Hebbige - Western boundary ..	(c) The word 'add' was omitted between the word "and & S.No.3". This has been correctly noted in the draft declaration. The.

rratum issued on 19-9-43 has not yet been published in the Gazette.

(12) S.Nos.25/1B -Extent: 2.68 acres.) (12) Correct extents as per sub-divn.
65 13.6 ") statements are noted;
S.No.25/1B - Extent: 2-08 acres.
13-16 "

Certified that all the differences between the published notification under Section 4(1) and the Draft Declaration under Section (6) of the Act have been reconciled.

My dear Fallett,

Land acquisition - (South Kanara) - Coondapur taluk - Hebbige, Koteshirur and Nagodi villages Jog Falls Hydro Electric Scheme.

Ref. Your D.O.No.196, dated 14.4.1944.

With reference to your D.O. quoted above, I am directed to forward two sketches which were prepared by the Chief Electrical Engineer to the Govt. of Mysore. The site ~~position~~ of the dam is not marked in them. Nor does it appear that they give a correct indication of the ~~area~~ area liable to submergion in all the three villages of Hebbige, Koteshirur and Nagodi.

The Govt. have also no information whether these villages are going to be affected by the scheme in other ways [redacted] than by submersion e.g. by dams, power ~~works~~ lines, margins ~~[illegible]~~ etc.

2. I am ~~also~~ to invite attention ~~to the last~~ ~~in this connection~~ to the letter of the Mysore Govt. No.P.W. 7167 dated 1.4.1943 communicated to the Board of Revenue with Govt. Memo. No. 5537-EG/42-11, dated .4.1943 and to suggest that the Board may get an

up-to-date sketch and any information it may require from the Collector or the Survey Circle Officer.

I am also to request that the Collector or the Revenue Divisional Officer may be asked to inspect the ~~land~~ land under acquisition ~~work~~ and to report urgently whether the Govt. of Mysore should be requested not to submerge the area this year. Once the land has been submerged, it will not be easy to question items of value which may be disputed.

4. ~~I am further to request, that~~ the sketches may be returned when done with.

South Kanara Collector's Office,
Mangalore. 29th April 1944.

From

Rao Sahib Sri P. Ramadoss, B.A.,
Collector of South Kanara.

To

The Secretary to Government,
Revenue Department,
Madras.

Sir,

Land Acquisition - (South Kanara) Coondapoor Taluk - Jog Falls Hydro Electric Scheme - supplemental draft Section 4(1) Notification.

178 aux Ref: Government Memo.No.5537 E.G.-42-36 Rev.Dept.,dated 24.4.1944. p. 178 aux

In paragraph 2 of the Government Memo. quoted above, the Government have ordered that the bits of land mentioned in para 2 of this office Ref.B1-7361-42, dated 18.12.1943 may be acquired in accordance with the instructions in para 5 of Chapter XVIII of the L.A.Manual. These are all severed bits which will become useless to the owners when the major portions of the lands are acquired for the scheme. Their value also is very small when compared with that of the lands already notified viz., Rs.1321.2.0 as against Rs.159,893 2-3 for the whole scheme. Under the last two sentences of para 5 of Chapter XVIII of the L.A. Manual no fresh notification of declaration seems necessary in respect of these severed bits and it seems to be sufficient if the Government order acquisition of the whole lands, when the Land Acquisition Officer can furnish a copy of this order

to the persons interested and proceed to make his award. If this view is accepted the publication of the Section 4(1) Notification in respect of these lands seems unnecessary, and an order as mentioned above may be kindly passed.

Sir,

Land Acquisition - (South Kanara) - Coondapoor Taluk - Hebbige, Koteshirur and Nagodi villagea - Jog Falls Hydro Electric Scheme - Preliminary valuation - Report - submitted.

In continuation of my letter Ref.Bi-7361-42, dated 18.12.1943 submitting the draft Section 6 declaration in respect of the lands proposed to be acquired for the Jog Falls Hydro Electric Scheme, I furnish below a revised preliminary valuation statement incorporating the valuation in respect of all buildings costing over Rs.2500/- which was got done by the Executive Engineer, West Coast Division, Calicut.

Koteshirur village.-

Value of occupied lands	Rs.38255.13.5
buildings in these lands	13703. 8.0
Trees	746.10.6
Wells	165. 0.0
	Rs.52870.15.11
15% solatium	Rs. 7904.12. 2
Total:	Rs.60775.12. 1

Hebbige village.-

Value of occupied lands	Rs.~~44282.12. 0~~ [illegible]
" buildings	39146. 8. 0
" Trees	859. 6. 0
" Wells	212. 0. 0
	Rs.85046.10. 0
15% solatium	Rs.12623. 2. 8
Total:	Rs.97669.12. 8

Nagodi village.-

Value of occupied lands	Rs. 108. 8. 0
" buildings	...
" Trees	1. 4. 0
" Wells	...
	Rs. 109.12. 0
15% solatium	Rs. 16.11. 0
Total:	Rs. 126. 7. 0

Value of the severed bits in respect of which a supplemental Section 4(1) Notification has been submitted with this office Ref.Bi-7361-42, dated 14.3.1944.	Rs. 1321. 2. 6
Grand Total:	Rs.159893. 2. 3

2. The valuation of the Local Fund roads and culverts and oth improvements which come under the submersion area was made by the District Board Engineer, South Kanara and this comes to an additiona Rs.29740/-. The District Board Engineer says that by the abandonin

of the Bennette Branch road, the hamlets of Hannar, Koteshwar, Hebbige and Bennette have no means of communication with the Mani Lakshmipur road either towards Mysore or towards Kollur side and that a feeder road will therefore have to be formed for the benefit of these inhabitants. He says that such a feeder road can be formed from the District boundary at the Bennette limit to the corresponding boundary in the Mani Lakshmipur road. The approximate cost of this road which will be about 4 miles in length is estimated at Rs.10,000/- The District Board Engineer says that the Mysore Government will have to bear the full cost of forming this road which is in Mysore territor in addition to the compensation payable in respect of the abandoned road.

3. With regard to Government lands leased out to the Mysore State, their valuation has not been made, as only lease amounts are due vide Government Memo.No.5537-E.G./42-35 Revenue Department, dated 1.2.44 communicated with B.P.Mis.194, dated 7.2.1944. Tree value however is being collected in respect of these lands.

4. The Land Acquisition Officer also suggests that 5 A enquiry may be dispensed with in respect of the severed bits, in respect of which supplemental 4(1) Notification has been submitted with my report, Ref.B1-7361/42, dated 14.3.1944. But as these bits include garden lands and an abandoned house, and as the lands are above the submersion area, the emergency clause seems inapplicable.

LAND ACQUISITION - (S.K.) - Coondapur Taluk - Jog-falls Hydro-Electric Scheme - Acquisition of severed bits of lands.

Reference: Government Memo No. 5537-E.G./42-38 dated 12-5-1944.

The draft declaration under Section 6 of the L.A.Act for the acquisition of lands for the Jog-falls Hydro Electric Scheme was submitted to the Government through the Board of Revenue in this office Ref.B.1/7361-42 dated 18-12-1943. In para 2 of this letter it was proposed to acquire certain severed bits of lands which will become useless to the owners for profitable cultivation on account of the acquisition of the remaining portions of their lands. It was also requested that sanction may be acquired for ~~for~~ the acquisition of these severed bits in accordance with the instructions in the las sentence of para 5 of Chapter XVIII of the Land Acquisition Manual as no fresh notification or declaration was necessary in respect of these lands. The Board in its Ref.I-74-44-1 dated 7-2-1944 (copy enclosed) did not however agree with this suggestion and ordered that the severed bits will have to be supplementally notified under Section 4(1) and acquired. A supplemental Section 4(1) notifica--tion in respect of the severed bits was therefore submitted to the Board with this office Ref.B-1/7361-42 dated 14-3-1944 (copy enclose The draft declaration under Section 6 and the supplemental Sec.4(1) notification in respect of the severed bits were approved in Govern--ment Memo No.5537- E.G./42-36 dated 24-4-1944. It was however orde in para 2 of this Government Memo that the severed bits may be ac--quired in accordance with the instructions in para 5 of Chap.XVIII of the L.A.Manual as originally suggested in this office Ref.B-1/736 dated 18-12-1943. As the value of the severed bits ~~is very small~~ when compared with the major portion of the lands which are already proposed to be acquired it was pointed out in this office Ref.B.1/7361-42 dated 28-4-1944 that according to the last sentence of para of Chapter XVIII of the L.A.Manual, no fresh notification or decla--tion was necessary in respect of these severed bits, that it would be sufficient if Government ordered the acquisition of the whole -- lands, so that the L.A.Officer may furnish a copy of this order to the persons interested and proceed to make his award and that if -- this view be accepted, the publication of Section 4(1) notification in respect of these lands was unnecessary. In their Memo No.5537 E -42-38, Rev.Department, dated 12-5-1944 Government have now ordered that no notification under Section 4(1) of the L.A.Act is necessary for the acquisition of the severed bits, but that action for their acquisition should be taken by ~~xxxx~~ including them in the notificatio under Section 6 to be submitted in respect of the lands for which -- notification under Section 4(1) has already been submitted. The dra Section 6 declaration and the supplemental 4(1) notification in res-pect of the severed bits have meanwhile been published in the Fort St.George Gazette dated 2-5-1944. It is not therefore possible to include the severed bits in the notification under Section 6. I -- therefore request that Government may be pleased to pass formal orders for the acquisition of the severed bits (referred to in the supplemen section 4(1) notification) under Section 49(2) of the Land Acquisitio Act, so that the L.A.Officer may furnish a copy of the order to the persons interested and then proceed to make his award. If this is no possible, the Land Acquisition ~~Officer~~ will have to hold the Section enquiry and submit a notification under Section 6 of the L.A.Act in respect of the severed bits which will only tend to delay the acquisi tion proceedings.

2. The new feeder road proposed in para 2 of this office letto Ref.No.B-1/7361-42 dated 19-4-1944 is the same as the new road with

bridge proposed in Government's letter No.2640-B-G/39-24 dated 15-4-1940.

Land Acquisition -(South Kanara) - Coondapur taluk - Jog falls - Hydro Electric scheme - Draft declaration.

Read letter from the Collector of South Kanara, B,1-7361/42 dated 18-12-43.

Reference:

At the instance of the special Deputy Collector, the Collector has recommended the acquisition under Section 49(2) of the Land Acquisition Act in respect of certain served portions. The Collector is informed that section 49(2) of the Land Acquisition Act can be employed only in cases where the draft declaration under section 6 have been published and subsequently severances were noticed. Hence Sec. 49(2) cannot be used now. The Collector is therefore informed that if the severed bits lie within the boundaries of the fields already notified under Section 4(1) they can be included in the draft declarati der Section 6, if not they have to be supplementally notified unde ction 4(1) and acquired. The Collector's attention in this nnection is invited to the instructions in B.P.Mis. No.3909, dated -12-1929 and para 1 of Chapter V Part III of the Land Acquisition nual.

2. The Collector's attention is invited to Section 48(2) of the nd Acquisition Act and he is requested to report whether any mpensation is payable in respect of S.No.3/1 of Koteshirur village ich has been proposed to be withdrawn.

3. The Collector is requested to report whether the Mysore vernment have agreed to pay enhanced compensation together with cidental charges if any that may be awarded by a Civil Court in ent of a reference under Section 18 of the Land Acquisition Act or peal therefrom.

4. The Collector is also requested to submit in English abstrac the Kanada petitions.

Ref:- Board's Ref.I-74/44-1 dated 7-2-1944.

The severed bits proposed to be acquired in my letter Ref.B1/73 ted 18-12-1943 do not lie within the boundaries of the fields alre otified under Section 4(1). I am therefore submitting a supplemen ction 4(1) Notification in respect of these bits and request that e same may be got published in the Fort St. George Gazette. The ecial Deputy Collector now reports after local inspection that S.N /2B and 77/3A of Koteshircor village which were originally propose

to be acquired as severed bits fall outside the contour line of the submergable area and are high ground with houses on them. As it is not considered necessary to acquire these plots they have been omitted in the Supplemental, Section 4(1) notification submitted herewith.

2. No compensation is payable in respect of S.No. 3/1 of Koteshirur village which has been proposed to be withdrawn as the plot was bought in by Government for arrears of land revenue before the publication of Section 4(1) Notification.

3. The Mysore Government have agreed to pay the cost of litigation, if any, ~~xxxx~~ arising out of acquisition of private rights in lands in addition to the cost of the acquisition including any enhanced compensation that may be awarded by a Civil ~~Court~~ Court - please see Board's Ref.No.b.2945/42-5 dated 27-4-43.

4. English abstracts of the Kannada petitions have been put up in the records of Section 5 A enquiry.

LAND ACQUISITION - (South Kanara) - Coondapoor Taluk - Nagodi, Hebbige and Koteshirur villages - Jog Falls Hydro Electric Scheme - Award enquiry.

In connection with the award enquiry in the above land acquisition case notices under Sections 9(1) & 10 of the L.A. Act were issued by the Special Deputy Collector for Land Acquisition, Coondapoor to the Deputy Commissioner, Shimoga District. The Deputy Commissioner now writes to say that the Executive Engineer, Hirebhasgar and the Special Land Acquisition Officer, Hirebhasgar have been deputed to go to Coondapoor to engage a Counsel and represent the case of the Mysore Government regarding the valuation of the properties notified for acquisition. He has also requested that as the witnesses on their behalf and the officials of the Mysore Government will find it difficult to go to Coondapoor during the rainy season, the enquiry may be postponed till September next when conditions of weather will improve and normal communications restored. A copy of the Special Deputy Collector's report, dated 28th June 1944 in this connection is enclosed. A Land Acquisition Officer of this Government can be trusted to do acquisition as carefully as possible about valuation and in the circumstances reported by the Special Deputy Collector for Land Acquisition, Coondapoor, I am of opinion that no special purpose will be served by the representations on behalf of the Mysore Government. If any representations have to be made on behalf of the Mysore Government it can be made before 10th July 1944 from which date the Special Deputy Collector for Land Acquisition proposes to pronounce the awards. I therefore request to be informed whether it is necessary that the acquisition proceedings should be stayed to be taken up as and when the Mysore Government representatives are completely ready. I also request that the necessary funds for the acquisition may be placed at the disposal of the Special Deputy Collector by moving the Mysore Government in the matter.

LAND ACQUISITION - Jog Falls Scheme - Award enquiry - Letter from Deputy Commissioner, Shimoga.
Ref.- My letter Refce.1-44 dated 15th June 1944.

As stated in my above letter the award enquiry in this land acquisition case is coming to a close. The last batch of cases posted to 29th June 1944 will be finished by 30th June 1944. The calculation of rates of market value and 15% solatium is also over and I have commenced writing the award proceedings. At this stage the Deputy Commissioner, Shimoga writes to me to-day requesting that the enquiry be postponed to September next to hear the evidence to be adduced on behalf of the Mysore Government and that the Executive Engineer, No.1 Division, Hirebhasgar and Special Land Acquisition Officer, Hirebhasgar have been deputed to go to Coondapoor to engage a counsel and give him instructions, to present the case of the Mysore Government before me regarding the valuation of properties notified for acquisition. (Please see copy of Deputy Commissioner's letter No.Spl.Acqn.C.2665-282/43-44, dated 24th June 1944 enclosed. It would also appear from this letter that the Deputy Commissioner's idea is to request ~~xxxxxxxxxxxxxxx~~ me to inspect some lands in adjacent villages of Mysore State and to examine the awards passed by the Mysore Special Land Acquisition Officers. If his request be allowed I think the award enquiry will take one or two months more from September and further proceedings will be postponed by another two or three months. In any case the work of the special staff may have to be pro-

prolonged up to the end of December, 1944 if not later.

2. I request that you will be pleased to write to the Deputy Commissioner, Shimoga pointing out the fruitlessness of this prolongation, the waste of time involved for officers of the Madras Government and the unnecessary expenditure to the Mysore Government in the shape of the pay and allowances of the Special staff. The following are the grounds on which the Deputy Commissioner's request has to be negatived.

(a) The Deputy Commissioner has had long notice of the land acquisition proceedings as the correspondence has been going on for years between the Government of Madras and that of Mysore. On 20th April 1944 the Deputy Commissioner visisted my office here, examined the records and took notes on the tentative values I had proposed. This was before the award enquiry.

(b) The draft declaration was published in the Fort St. George Gazette in the first week of May and I issued 9 and 10 notices to the Deputy Commissioner, Shimoga and the Superintending Engineer, Hirebhasgar on 12th May 1944. They must have received them by 15th May 1944. The award enquiry was posted to 2nd, 3rd and 5th June 1944 as I had been directed by Collector to finish the entire work by the end of July. The officers of the Mysore Government had ample time to arrange for representation before the end of June 1944 but they have failed to do so till now.

(c) Now that the enquiry is over I propose to pronounce the awards from 10th July onward so as to be able to finish all the awards by the end of July 1944. I have asked for an extension of one more month (till end of August 1944) so as to finish payments of compensation, make deposits to court and complete all other formalities mentioned in my letter dated 15th June 1944. If the Deputy Commissioner's request be granted it will not only upset all this arrangement but also entail doing over again all calculations of awards and result in waste of time and energy without commensurate profit to the Mysore Government.

(d) As stated by me in my letter dated 19th May 1944 the Dy. Commissioner has not understood the situation properly. He seems to be under the misapprehension that the rates of value proposed are high, whereas the facts are that I have proposed to award rates ranging from Rs.75/- per acre to Rs.300/- per acre as detailed in my above letter. The Deputy Commissioner seems to base his case on the top figures of Rs.200 to 300 and ignore the lower rates of Rs.75, 100, 125, 150 etc. This is obviously special pleading of a kind which is hardly to be expected from an officer of the Mysore Government. Besides, I have, in the course of the award enquiry made further cuts in valuation with the result that the preliminary value of Rs.1,59,000 for private lands has been brought down to Rs.1,32,000/- resulting in a saving of about Rs.27,000/-.

3. In view of the above circumstances, I request that the Deputy Commissioner and the Superintending Engineer, No.1 Division, Jog Power Scheme be moved at once not to delay proceedings any further but to allow the land acquisition proceedings to continue, so that they may be completed by the end of August 1944. As a last chance, I have no objection to hear any representation made to me on behalf of the Mysore Government if it is done before 10th July 1944.

4. The Mysore Government have not yet deposited the amount required for compensation in spite of the letter from Government to the Resident in Mysore and my reminder to the Superintending Engineer, Hirebhasgar. I request that the Secretary to Government (Public Works) Mysore State. ~~to~~ reminded again through the Resident in Mysore.

SUBJECT: ACQUISITION OF LANDS IN COONDAPUR TALUK, for the Jog Power Scheme.

With reference to the notices issued by you under Sections 9(1 and 10 of the Land Acquisition Act, I have the honour to state that the Executive Engineer, No.I Division, Hirebhasgar and the Special Land Acquisition Officer, Hirebhasker, have been deputed to go to Coondapur immediately to engage a counsel and give him instructions to present our side of the case. The enquiry and passing of awards may kindly be put off until evidence is adduced on behalf of the Government of Mysore regarding the valuation of properties notified for acquisition. Though the properties to be acquired by you are in the Coondapur Taluk, the surrounding and the adjacent territory is in the Mysore State and there is plenty of material available in our records to arrive at a just valuation consistent with conditions obtaining in the surrounding tracts both as regards structures and lands. It would be necessary therefore to put all these material evidence before you through our counsel, witnesses and documents. As this is the rainy season, our witnesses and officers will find it very difficult to go to Coondapur every now and then. I would therefore request you to kindly post the enquiry to the month of September when conditions of weather will improve and normal communications restored. I would also request you kindly to send all notices hereafter to the Superintending Engineer, Jog Power Scheme, Jog Post, direct instead of sending them to me or to the Secretary to Government of Mysore in the Public Works Department.

LETTER No. 3536-G/44-1, Dated 17th July 1944.

To

The Secretary to the Hon'ble the Resident in Mysore

BANGALORE.

Sir,

Land acquisition - (South Kanara) - Coondapur taluk - Jog Falls Hydro Electric Scheme - Award enquiry - Postponement - Request of Mysore Govt.

Ref: This Govt.'s letters Nos. 5537-EG/42-44, dated 22.5.1944 and 5537-EG/42-47, dated 3.7.1944, and telegram d. 16.7.44

I am directed to invite attention to my letters quoted above requesting you to move the Mysore Govt. to place at the disposal of the Collector of South Kanara the sum of Rs. 1,59,893 required for the payment of compensation for private lands to be acquired for the Jog Falls Hydro Electric Scheme.

2. Notices under sections 9(1) and 10 of the Land Acquisition Act were issued by the Special Deputy Collector for Land Acquisition, Coondapur, to the parties concerned including the Deputy Commissioner, Shimoga district, in May 1944. The Special Deputy Collector expected to complete the award enquiry by 30th June ~~1944~~ and to begin ~~making~~ pronouncing awards on 10th July. ~~In fact~~ He reported on the 15th June that he had commenced writing award proceedings. The Collector of South Kanara ~~has~~ now ~~reported~~ writes that the Deputy Commissioner, Shimoga, has written to the Special Deputy Collector stating that the Executive Engineer, Hirebhasagar, and the Special Land Acquisition Officer, Hirebhasagar, have been deputed to go to Coondapur taluk to engage a Counsel and represent the case of the Mysore Govt. regarding the valuation of the properties notified for acquisition. The Deputy Commissioner has also requested that, as the witnesses on their behalf and the officials of the Mysore Govt. will find it difficult to go to Coondapur during the rainy season, the enq

may be postponed till September next when the conditions of weather will improve and normal communications will be restored.

3. The Deputy Commissioner, Shimoga, visited the Special Deputy Collector's office on 20th April 1944, examined the records and took notes on the tentative valu proposed by the ~~special~~ Deputy Collector; and as he received notices of the enquiry in May 1944, he had ample time to arrange for production of evidence before the end of June 1944. The Deputy Commissioner is probably under a misapprehension that the valuation of the Special Deput Collector is high. I am to state that in the course of his award enquiry the Special Deputy Collector has made further cuts in the valuation of the private lands with t result that the preliminary valuation of over Rs.1,59,000 for private lands has been brought down to about Rs.1,32, resulting in a saving of aver Rs.27,000. As it is, the Special Deputy Collector hopes to finish work by 31st Aug 1944, ~~1944~~, but if the enquiry is postponed to September as requested by the ~~xxxxxx~~ Deputy Commissioner, Shimog further acquisition proceedings will be postponed correspondingly and the work of the special staff may have to be prolonge to the end of December and perhaps longer. Such postpone will ~~therefore~~ not only upset existing arrangements but also entail doing over again ~~the~~ calculations of awards, may ~~involve~~ entail the reissue of notices for award enquiry to the parties and cause increased expense to the Mysore Govt. In the circumstances, the Special Deputy Collector and the Collector of South Kanara strongly deprecate postponement of awards. In the circumstances stated, I am to request that the Govt. of Mysore may be moved to agree to further awards being made by the Special Deputy Collector immediately i.e., without postponing them till September, ~~and to inform this Govt.~~ But if × very urgently of the earliest possible date ~~of~~ when the Deputy Commissioner, Shimoga, can produce evidence for valuation, ~~if this is still considered necessary by that Govt.~~ In the meantime the Special Deputy Collector has

× the Govt of Mysore still wish to make representations regarding the valuation of the lands, this Govt may be informed

been asked to postpone the pronouncement of further awards pending further orders of this Govt.

4. I am also to request that the Govt . of Mysore may be moved again to place at the disposal of the Collector of South Kanara the sum required for paying compensation, as some awards will have been passed already and these are final.

5. A very early reply is requested.

Land Acquisition - (South Kanara) - Coondapur taluk - Jog Falls Hydro Electric Scheme - Certain severed bits of lands - Draft declaration.

Ref: Board's Ref. No. I. 74/1944-10, L.R. & Irrgn., dated 12th July 1944.

In Government Memo.No.5537/E.C.42.48 Rev., dated 8th July 1944 communicated with the above Board's Reference, it has been ordered that Sec.49(2) of the Land Acquisition Act will apply only when the claim for compensation is unreasonable or excessive. In the case in question the owners did not object to the acquisition of either the main portion or the severed bits; but what they urged was that the severed bits will be unsuitable for cultivation or other use as independent units and that therefore they were entitled to claim full compensation for the severed bits also. Thus, this is practically a claim on the part of the owners to be paid the entire compensation also for the severed bits and in consequence it would virtually be a case of compensation which is considered either excessive or unreasonable so far as the Land Acquisition Officer is concerned as full compensation need be paid only in case the severed bits are also acquired. Therefore, it would appear that this is a clear case of the severance damage being considered excessive unless the bits are also acquired. Therefore Sec.49(2)

creation of district supervising unions. As Registrar of Co-operative Societies, I held that in general Co-operative unions were not a success and that the supervision was better in the hands of banks who had a direct interest in the control of loans. Non-official controlling associations for panchayats did exist in the earlier days of the panchayat movement but their history was by no means free from serious scandal and with the appointment of District Panchayat Officers they were abolished. Contributions and subscriptions would presumably be levied from panchayats to support these associations and it seems doubtful whether the money would be well spent. It is impossible to dispence altogether with official controlling authorities and these unions would add another controlling authority. Further it is not clear how the proposed unions would be any more effective than the non-official bodies which have already been tried and failed e-g the district boards. They would be district boards on a similar scale.

9. There are many other points of details to be criticised. I shall mention only a few of them at present.

(a) Section 59 (1) would give panchayats control over encroachments. Experience has shown that this is impossible. Elected bodies can never be trusted to deal efficiently with encroachments.

(b) Section 66 (3) - No provision is made for transfer of panchayat clerks and staff. Experience has shown that this is essential.

(c) Section 67: There is no provision for appeals against punishments inflicted by a president. There must be some outside authority to hear such appeals.

(d) Section 72 provides that appeals against assessment of taxes and fees shall lie to the panchayat. This is useless as the President, who is imposing the taxes, presumably has a majority in the panchayat. Complaints against injustice in the assessment of house-tax or profession tax

will seem to apply. It is said that the persons interested have not made any claim to compensation for the severed bits; whereas the records show that they have been claiming full compensation even from the very beginning. The only occasion when the reasonableness or otherwise of the claim is to be considered will be at the time of the award enquiry. The Land Acquisition Officer after conducting the award enquiry now finds that compensation has to be given in fairness for the entire severed bits and no reduction is reasonable. This would appear to be the stage at which the applicability of Sec.49(2) arises. Therefore it appears to me that the acquisition can be proceeded with under Sec.49(2) as already ordered by Government in their Memo. No. 5537-E.G. 42-36, dated 24-4-1944. Very rarely does a case arise in actual practice where severance is objected to except by a claim for full compensation for the severed bits.

2. Further, in these cases, it is understood that the owners have no objection to the acquisition of the severed bits. They seem to be only too ready to receive compensation for the severed bits provided it is for the entire area. In a circumstance like this there seems to be no legal obligation to observe all the initial formalities of the Act.

3. The Special Dy.Collector has got only one month more to complete his work. He has drafted his awards completely and is only awaiting the deposit of funds by the Mysore Government. His enquiry under Sections 9 and 10 of the L.A.Act embraces all the severed bits and he has issued notices for award enquiry specifically in respect of these bits. This would seem to be a furthe: safe-guard against any unforeseen claims. I solicit the favou: of immediate orders. However, the Special Deputy Collector h: issued notices to the parties for purposes of 5A enquiry and Draft Declaration will be submitted in due course after the enquiry is over. But this will mean considerable further dela

Ref:- From the Bd. of Rev., Ref. No. D 74/44-12, dt. 11-8-44

The Collector of S. Kanara has stated that the L.A. Officer after conducting the award inquiry has found that the compensation has to be given in fairness for the entire severed bits and that no reduction is reasonable. As Sec. 49(2) of the L.A. Act is applicable only to cases where the Govt. consider the claim to

be reasonable or excessive. ~~As it is~~ and there is no reason to consider the claim to be so in the present case, the ~~not considered excessive in this case~~ section is inapplicable and the normal procedure ~~draft declaration and~~ prescribed under the ~~L.A.~~ Act should be complied with. The Bd of Rev. is requested to instruct the Co Ur to submit the draft declaration under Sec. 6 of the L.A. Act at an early date.

Acquisition of lands in Coondapur Taluk, South Kanara District for the Jog Falls Hydro-Electric Scheme.

I am directed to refer to your letter No.RF.256-40/Pol., dated 27th May 1944, forwarding for necessary action, a copy of letter No.5537 E.G./42-39 dated the 16th May 1944 from the Secretary to the Government of Madras, in regard to the construction of a feeder road from Bennette at the District Boundary of South Kanara, and to state that the Chief Engineer for Irrigation in Mysore has reported that a joint discussion on the subject was held by the Executive Engineer, Hirebhasgar Division with the Collector of South Kanara at Mangalore on the 13th October 1944. An alternative proposal connecting Kotesirur with the main Lakshmipur Road to give access to all the hamlets except Hebbige mentioned in the letter from the Secretary to the Government of Madras under reference, is stated to have been considered and agreed to as being more useful.

I am further to state that the Chief Engineer for Irrigation has reported that the Collector, South Kanara District, has since intimated the Executive Engineer, Hirebhasgar Division that no further compensation is required to be paid by this Government as the cost of constructing the roads and culverts will not exceed the amount of Rs.29,740/- already placed at the disposal of the Government of Madras. The correspondence on this subject may therefore be treated as closed.

2. Board's Ref.I.971/45-1 dated 18-5-1945.
3. This office report Ref.B1.7367/44 dated 24-5-45.

The District Board Engineer, South Kanara reports that a new road from 30/7 of Nagodi Laxmipur road to join the Hannar Bennette road at Koteshirur has been roughly formed by the Panchayat Board to a length of about 2-1/4 miles and that this road has to be widened, improved and metalled at an estimated cost of about Rs.30,000. He adds that the probable cost already reported by him on 29-12-1944 was only a rough forecast. The new road will join the Hannar Bennette road beyond the possible limits of submersion and it will meet all future requirements, as far as can be foreseen. A sketch showing its alignment is enclosed.

2. The alignment of the new road does not, however, give access to Hebbige village. The investigation held so far shows that it is not feasible to give access by road to this village. The present District Board Engineer says that he will make further investigation in the matter when he next goes there.

3. As regards point 3 raised in the Government Endorsement I invite attention to my report Ref.B1.7367/44 dated 24-5-1945 I have not yet received intimation from the Accountant-General regarding the adjustment of Rs 29,740

LAND ACQUISITION - Gersappa Hydro Electric Scheme - South Kanara - Coondapur Taluk - Hobbige Village - Opening of a new road - Report submitted.

Reference: Government Endt.No.1585-G/45-1, dated 11-4-1945.

I enclose a sketch showing the new road proposed to be constructed. The Dt.Board Engineer, South Kanara, has inspected the road and the locality. The proposed new road is aligned on the existing cart track originally opened by the Nagodi Panchayat Board within the Nagodi Village limits and subsequently abandoned. The Dt.Board Engineer proposes to utilise the cart track alignment up to 5 furlongs and reach the southern bank of the Kudarai-Kali Hole which is a tributary joining the Laxmipur river down below. This is only 60' in width and can be crossed by a foot-bridge. Beyond this, the road can be aligned easily on the flat hills near Hobbige village, bearing S.Nos.136 and 137 and then reach the Village. The distance up to the river including the cart track is 1¼ miles while the road on the other side will be 3/4 of a mil The entire ground is one of very good soil and sub-soil ranging f red stony earth to laterite rock. The proposed road and the foot

bridge to Hobbige village will satisfy all the requirements and provide complete access to the Village. The approximate cost of opening and forming and metalling this road where necessary with drains and a foot-bridge for the Hole' is estimated at $ 10,000/-.

Acquisition of lands by the Government of Mysore in Coondapur Taluk, South Kanara District, for the Jog Falls Hydro-Electric Scheme.

...

I am directed to refer to your letter No.R.F.32-46/Pol dated 26th October 1946, forwarding an estimate with drawin received from the Government of Madras, connected with the replacement works, and to state that the estimate is for a new road proposed to be opened in addition to the replacement works proposed by the Government of Madras out of the sum of Rs.29,740/- already placed at their disposal. The Chief Engineer for Irrigation requires copies of the estimate or estimates with drawings of the replacement works proposed to be carried out or already executed out of this amount to enable him to verify and report the amount that may actually become payable to the Government of Madras in addition to the compensation amount originally estimated and paid already, as required in letter No.P.W.8691 dated 11th June 1946. p23c

2. I am therefore to request you to be so good as to obtain from the Government of Madras the estimate and plans connected with the replacement works carried out from the amount already placed at their disposal

3/. Attention is in this connection solicited to the extract of notes at pp 163-169 of Gp 202 Rev dated 28-1-41. It was suggested at portion marked

T at p 169 of the Go that the qn whether ~~the~~ the acqn in this case should be dealt with in accordance with the arrangements contained in the S of I resolu at p 158 of the Land Acqn Manual should be examined separately on receipt of the Mysore Govt's reply to this Govt's Letter No 2640 B S/39-24 dd 15-4-40. The present letter of the Mysore Govt is a reply to most of the points raised in this Govt's letter; but as the Mysore Govt have asked for some further information in regard to rentals, it is presumed that their present letter cannot be taken as a final letter. It is therefore for consideration whether the examination referred to at 'A' above should be undertaken now or whether it may be postponed until after the Mysore Govt send their final letter on receipt by them of the figures of rental which this Govt will charge for lands ~~and therefore~~ to be leased to the Mysore Govt.

If it is considered that the examination referred to at 'B' above should be undertaken now, please see the note of the ~~[illegible]~~ late Dy Secy at pp 165-167 of Fo 202 Rev dd 28-1-41 wherein the differences between the proposals under the Log falls case and the position under the rules have been indicated. already made in the matter, it will be considered that the application of the rules in the Govt I resolution need not be applied in this case — pl see in this connection the note of the previous Dy Secy & Secy at pp 167-168 of Go 202 Rev Ds 28.1.41. S)

The reply of the Mysore Govt is on p 3 cf.

It has accepted, in part this Govts terms, and now asks for information about the rate of rentals.

The Board of Rev. may be consulted

2/ Before doing this, a decision may be arrived at on the question deferred at T.

The notes on pages 167-169 of Flag S may be read.

H.E. and Secy Rev Dn agreed to follow the principles contained in the Rules, and previously governing cases of this or an allied kind; but the Jog Falls case was to be considered separately in the light of the negotiations then in progress.

The Mysore Govt has in its letter now received agreed to the stipulations in para 2 (1) of our letter dt 1.3.F, but requires more information about it before committing itself on para 2 (2)

This Govt has to decide whether to continue negotiations along the present lines (i.e. a 999 yrs lease) or whether to ask the Mysore Govt to acquire a perpetual freehold, as contemplated in the Govt of India resolution contained in Appx II A of the L A Manual

p 158 L A Manual & B.K. 28

The advantages of disposing of these lands under a perpetual freehold (the lands are in an enclave, a Madras Territory in Mysore State), the sovereign rights of this Province not being affected, as against a 999 yrs lease, which would entail the maintenance of elaborate accounts may be considered.

If it is decided to continue negotiations along the present lines, this memo to the Bd of Rev may be affd.

If ~~this~~ decided to ask the Govt of Mysore's views about acquisitions on the lines of the S of I resolution, orders may be taken in circulation.

V. S's note on p 4-5 above may read together with the notes on pp 163-164

2. Reading between the lines of the notes I gather that U.S. Rep and Sec W.D. were in favour of rev. this gets freedom of action to use as a club if Russia were unreasonable in a negotiation.

3. From para 2 on p. 3 of it also appears that Russia are apprehensive of our putting an embargo or prohibitive restriction on the land-lease we might choose to make for aerodromes by the Sikorskis ~~Gunners~~ generally!

4. We should relish of this anxiety and offer them as an alternative to our present terms the procedure in the Lend Lease Resolution, supplemented by clauses (b) and (c) on p. 3 of the which they have already agreed.

~~but don't altogether need~~

Please see the Rev. deptt's notes on pp. 4-6 above.

The question now for consideration is whether the acquisition of lands required for the Jog Falls Project should be according to the terms mentioned in para 2 of this Govt's letter of 15-4-1940 or according to the general rules previously laid down by the Govt. of India to govern cases of this kind. (These rules are now inoperative, but the G. of I. propose to re-issue them with some slight modifications.) The comparative position is as shown below.

pp. 66-67 of (5)

	According to the Rules.	According to the terms already agreed to Mysore.
ivate lands.	Cost of acquisition to be paid by Mysore.	Cost of acquisition to be paid by Mysore.
ovt. lands.	Market value to be paid by Mysore.	No cost need be paid by Mysore.
nd Revenue.	Capitalised value (including miscellaneous revenue) to be paid by Mysore.	Rental for entire area (private + Govt. lands) based on revenue from private land and a reasonable sum for user of Govt. land to be paid by Mysore.
ental	Nil.	
nure.	Perpetual freehold subject to retention of sovereign rights. (pp. 163 of (5))	999 years lease.

Under ~~the system of~~ perpetual free hold, this Govt. will get the market value of Govt. land (it is doubtful whether this will be substantial) + the capitalised value of land revenue now derived from private land, instead of a perpetual rental for Govt. as well as private land that may be got under 999 years lease.

2. The previous Finance Secy. (Mr. Scott Brown) was inclined to doubt whether the terms already

offered to Mysore would be acceptable to the
They have now accepted them except in
regard to the amount of rental payable for
Govt. land about which they have asked for
information. (They apparently agree to the
payment of rental for private land based on
revenue previously derived by this Govt.)
It is for consideration whether it is necessary now to
offer Mysore the choice of either of the alternative ~~of choosing either~~
methods as proposed by Revenue. Before deciding
this question, the Board of Rev. may perhaps be
consulted as to ~~advantageous before~~ which method will be financially
more advantageous to this Govt.

Vide below letter 20.1.43

Hyd

20.1.43.

In regard to the acquisition and lease of
lands in the Coondapur Taluk, South Kanara Dt,
which will be submerged by the Jog Falls Project
of the Mysore Govt. Certain terms were proposed for ~~the~~ the acceptance
That Govt. Vide para 2 of the letter on pp 66-67 of the Go. at (5).
The Mysore Govt have accepted the terms of this Govt regarding p 3 (=
the payment of the cost of acquiring private lands, & of the
staff to be employed for acquisition of lands etc & the construction
of fresh roads, bridges etc required in place of those affected
by inundation. They want information regarding rentals
for the lease of the lands. While the question of acceptance or otherwise
of the full terms is not settled, it does not seem desirable to M
consider now the question of acquiring the lands and handing
them over under the perpetual freehold scale. The Mysore Govt

agree Govt. Govt

are meanwhile proceeding with the construction of the dam. Vide their letter at p. 209 of (8). It seems therefore necessary that the information required by them should be given as early as possible, so that complications may not arise in the settlement of the question. The question of the application of the perpetual freehold rules need not be considered at this stage.

2. Our point regarding rentals seems to require clarification. Although the Mysore Govt. was asked to pay for the acquisition of private lands, these lands were proposed to be leased on payment of a rental equal to the loss of revenue derived from them by Govt. The Mysore Govt., which accepting the other terms categorically, have not referred to the rentals on private lands. They want information only the rental on Govt. lands. Either they accept the terms proposed or they think that the lands will not be included in the 999 years' lease, as the lands have become theirs by acquisition. The lands are assessed lands in private holdings. The loss of revenue is not only the present assessment, but also the potential revenue that will accrue to Govt. at every periodical resettlement during the long period of lease. The Mysore Govt should not only pay the land revenue now forgone but also the prospective increase in revenue in the reference to

Moreover from the financial point of view, the lease is more advantageous to Govt. than the application of the freehold rules. The capitalised value of land + land revenue under the former are which the lease amounts were to a considerably more. + will be more than the interest on the capitalised value.

α. The capitalised value of land is not in question: it will be met in full by the Mysore Govt. whether the tenure is lease or freehold.

Mrs T, 3 C/-

They do not accept the terms proposed for private lands viz they will pay for the land revenue forgone by Govt. There is no question of rentals with regard to private lands.

Mrs T, There is also the chance that it may be reduced. Rent equal to the existing land revenue is reasonable, & no change need be suggested. Ord

the assessment on adjacent lands at the rate of each Settlement. Provision will have to be made for this in the Act.

The Govt lands (726 acres in extent) are assessed lands, excepting a small portion. They are likely to be sought under cultivation & become valuable. In the case of Pengar Project, this Govt are giving to the Travancore Govt rental at the rate of Rs 5 per acre for 8000 acres of uninhabited ~~jungle~~ jungle, which is not of any great value even in the matter of timber. The rental for the Govt lands in question must be ~~considerably~~ higher than this and fixed with reference to their present (?) potential value as agricultural land & not as land fit only for the storage of water.

4. Revenue may not be taken in Rs of the points referred to in paras 2 & 3 above but I ask it to send its reply as early as possible. In the meantime, they may also ask the Resident whether the Mysore Govt agree to the terms of rental regarding the private lands.

24.1.43.

It is difficult, if not impossible, to determine what the prospective value of land will be and it is hardly fair to ask the Mysore Govt to pay over a period of 999 years a rental based on the productive use the land could be put to. The only basis on which such a long term agreement could be entered into is the present asses

be asked to suggest a suitable rate of rent taking into account the present & potential value of the land for agricultural purposes & including ~~any~~ appropriate land revenue ~~assessment~~ assessment on the land. Dwd 27.1.43

As the letter on p. 3 C.F. does not refer to this, a specific reply may be requested as to whether Mysore agrees to pay rent for the lands which are now private lands equal to the existing full land revenue (i.e. not allowing any deduction for the temporary general concession in fasli 1352 if it applies to these lands at present) Dwd

we are already committed to this course (See 13 on p 67 of (S))

in the case of private lands, (and it has been decided not to capitalise the loss in land revenue on these private lands). Lands belonging to Govt. (other than assessed wastes) present a more difficult problem in the matter of determining what are fair rentals and the Board of Rev may be left to suggest a method for determining rentals on such lands.

It may also be observed that the 'replacement' works such as pest roads, bridges & structures will involve further loss of land revenue on lands used for these public purposes & Mysore should agree to compensate us for the loss of such revenue.

Mysore has not said anything about costs of litigation any, arising out of these acquisitions. This point was not specifically put to them in the letter on pp 66-67 of (S). Although it was considered in the general file dealing with the principles to be observed in the acquisition of lands on behalf of Indian States (see p 25 of (W))

25743 ¶ 1 A above. The area occupied by the existing roads, bridges etc will presumably be included in the extent of Govt lands for which Mysore will be asked to pay rent at a certain acreage rate, & this rate will naturally be more than the average land revenue assessment on the land would be as it will be intended to cover land revenue & something more. In that case we shall get in rent the equivalent of land revenue on the existing sites of roads, bridges etc on which no land revenue could be collected under present conditions, & it would be unfair to ask Mysore to make any additional payment on account of land revenue to be foregone on the new sites.

B above. We may ask for the ~~amount~~ costs of litigation, if any, arising on

of the acquisitions to be treated as part of the cost of acqu^n to be paid by the Mysore Govt., & for their specific consent to this to be obtained.

3/ I do not think it is desirable to suggest any radical change in the terms already offered. It is preferable from the financial point of view for this Govt to receive an annual rent, as already proposed, rather than an equivalent capitalised payment which would go into the revenues of the year of receipt.

This file relates to the acquisition of lands in the Coondapur taluk of the South Kanara dt for the Jog falls Hydro-Electric scheme. Please see the notes from p 4 supra.

2/. Procedure to be adopted in the matter of acqn.

Please see Fin Asst Secy's note at p 8 supra and para 3 of Fin Secy's note above. Finance prefer adherence to the terms already offered i.e. to acquire the private lands at the cost of the Mysore Govt and to lease those lands as well as the Govt lands on a 999 years lease. This proposal may be approved.

3/. Rent on private land to be acquired and leased

This Govt previously suggested to Mysore that the rental on the above class of land will be based on the full revenue previously derived from these lands by this Govt. Fin Secy has agreed that rent equal to the existing full land revenue is reasonable and that no change need be suggested. The proposal to change

SPL. SECRETARY TO GOVERNMENT
REVENUE DEPARTMENT

on private holdings rent equal to the existing land rev maybe approved. As suggested by Fin Secy, the Govt of Mysore may be requested to state whether they agree to pay this rent.

Yes, but if this is the principle means LR without LR conversions. Full LR

4. Rent on Govt lands to be handed over to Mysore (on lease)

In this Govt's letter at pp 65-67 of Go. 202 Rev & 28.1.41 it was ~~suggested~~ intimated to Mysore that on these lands a reasonable sum will be charged as rental, which would take into consideration the uses of the land. In their letter at p 3 of the Govt of Mysore enquired what would be the estimate of the reasonable amount on the total acreage or rate per acre and they drew attention in that connection to the fact that the inundated land is not put to any use except to store water. Fin Secy has suggested that the Board should be asked to suggest a suitable rate of rent taking into account the present and potential value of the land for agricultural purposes and including the appropriate land rev assessment on the land. The proposal maybe accepted and the Board addressed accordingly.

[illegible] argument in any case for this stored water [illegible] will bring in very large revenues to Mysore [illegible]

5. Compensation for loss of rev on lands used for public purposes in connection with the scheme i.e. on lands used for alternative roads, construction of bridges and other structures etc

For the reasons given by Fin Secy at p 11 supra, no compensation need be demanded for these items. It maybe pointed out in this connection that it appears [illegible] Cotton Dr S. K. Nesemeth said that

the site of the alternative roads & bridges lies in Mysore territory

6. Cost of litigation arising out of acquisition.

Fin Secy has also suggested that the cost of litigation if any arising out of the acquisition should be treated as part of the cost of acquisition to be paid by the Mysore Govt and that the specific consent of the Mysore Govt should be obtained. Subd that the propos may be accepted and the Mysore Govt addressed accordingly. Pt 11-12 Ex 50

7. Estimate for the construction of alternative road Pl see para 2 (1) (c) of this Govt's letter at p 66 of Go. 202 Rev dated 28.1.41, para 4 of the Endt to the Bi at p 213 of the Go and the Board's reply at pp 7-8 cf. As it is now reported that the works are in Mysore sta no action is necessary. With refce to his letter at p 8.

the Board of Rev might ask to inform the Coll of S. Kanara ~~can be informed~~ that there is proposal to change the diversion of the road already proposed.

8. Shifting of the hamlets and of a village.

The Govt of Mysore ~~in their~~ - Vide the second letter of the Resident re want that arrangements should be made at an early date to shift certa hamlets & one village specified by them which are expected to be submerged during the next monso in June 1943. As will be observed from paragra 3 and 4 above, the Govt of Mysore have not yet expressed their agreement as regards the rental to be bounded on

to them. So far as the Govt lands are concerned a reference to the Board of Rev is necessary and the Board will presumably take some time to submit a report. There is no information whether the ~~boards~~ hamlets listed out by Mysore as liable to submersion form part of the lands proposed for acqn. The total extent of all the three classes of lands required by Mysore is only 1120 acres; but the Mysore Govt have listed out for shifting 21 hamlets of 2 villages and one main village. It is observed from the list of lands originally furnished by the Coll of S. Kanara that certain lands in the 2 villages referred to above will be submerged, but no mention is made therein of the one main village. It is presumed that Mysore want only that lands required by them which are expected to be submerged should be handed over to them. This point maybe verified from Mysore. They may also be informed that there will be no objection to initiating Land Acqn proceedings in respect of the lands required by them provided they agree beforehand to pay whatever rentals that maybe fixed by this Govt for the lands to be handed over. Please also see in this connection para 4 of the Coll's letter at p 33 of Go 202 Rev dated 28.1.41. It however appears doubtful whether urgency clauses can be applied in the matter of acqn as the lands may contain buildings. If so, possession can be taken only after award is passed.

9. <u>Proposals for employment of staff in connection with acquisition</u>. At pp 13-14 of the Coll of South Kanara

has subd certain proposals for the employment of sta in Connection with the proposed acquisition. The Colr's letter is a copy of the letter addressed to the Board and the Board's remarks have not yet been recd. The staff mentioned in paragraph 1 of the Colr's letter would seem necessary urgently, at any rate for the Board to report the ~~value of~~ rentals that should be charged on Govt lands. Mysore have already agreed to meet the cost of staff [ask] employed in Connection with the valuation of lands. But the staff then contemplated was only 1 spl Rd & 1 peon. For orders whether the Board's remarks on the Colr's proposals will be awaited. If so, the Board may be asked to expedite its remarks.

10. A draft memo to the Board of Rev and a draft letter to the Hon'ble the Resident in Mysore are subd for approval with refce to paragraphs 3, 4, & 6 & 7 above. The draft to the Hon'ble the Resident will be amplified after orders are passed on para 8 above. ~~A draft memo to the Colr of S Kanara is also subd with refce to para 7 of the note above.~~

received ultimately from the Govt of Mysore. Copy of the memo sanctioning the staff might be sent to the Hon'ble the Resident in Mysore for his information. It appears unnecessary to get the prior consent of Mysore for the employment of the staff. A draft memo is subd. It might be sent to Fin for acceptance.

Please see the notes from pp 4-12 ante & U.S.'s note (para 3) at p 17 ante. The several drafts mentioned in the notes have been issued. Orders may now be obtained in circulation on the question whether acquisition in this case should be carried out in accordance with the terms mentioned by this Govt in their letter at pp 65-67 of F.O. No. 202 Revenue, dated 28-1-1941 as modified by their letter at pp 20-22 C.F., or whether the acquisition should be dealt with in accordance with the arrangements contained in the Govt of India Resolution at p. 158 of the 2nd Acquisition Manual. — ~~Vide U.S.'s note at p. 17 ante.~~

15-2-43 15/2/43 16 Feb S

The point for orders is whether the land which will be inundated by the Jog Falls reservoir water should be given on a 999 years lease to Mysore or on a perpetual freehold, sovereign rights remaining unaffected. In the former case Mysore agrees to bear the cost of acquisition of private lands and pay a rental on this Govt's land. The latter alternative has not been placed.

It was decided at a Cabinet meeting that the offer should be made to Mysore of a 999 years lease, in revival of the rules at P. 158 of the Land Acqn Manual which provide for a reciprocal arrangement giving a perpetual freehold, was later agreed to by all advisers of H.E. but the Jog Falls case was to be considered after the receipt of the

Mysore Govt's reply. Now when Mysore's reply (pp 3-4 C.F.) has been received agreeing to the lease, the previous Rev Secy (Mr. Arbuthnot) thought that we should offer them the alternative also. Fin Secy prefers an annual rent to a capitalised payment.

Mysore have written recently that they intend to flood the lands during the next S.W. Monsoon. It seems unnecessary to start fresh correspondence now regarding the alternative proposal. Negotiations may continue along the lines already adopted. For orders.

Rents to be fixed in respect of assessed unoccupied

Para 2 of the Collector's letter at p. 45 C.F. :- So far as assessed and unoccupied fort. lands are concerned, the Collector proposes that rents may be fixed at the rates of assessment now prevailing. The Collector has taken into account the present and potential value of the lands in suggesting the above basis for fixing the rents, which may perhaps be accepted. The Collector has however proposed that the rates of assessments on which the rents are proposed to be based, should be subject to revision at future resettlements. For orders whether this need not be insisted on as in the case of fixing rents on private lands - please see in this connection the note of Finance Secretary in the margin at p. 9 ante. Portion marked 'A' at pp 26-27 ante:- The Mysore Govt have already been informed that the rentals on private lands will be equal to the existing full land revenue and that Govt have also agreed to the stipulation viz. Vide para 1 of this Govt's letter at pp 20-21 C.F. and para 2 (1) of the Mysore Govt's letter at p. 31 C.F. It is however presumed that there is no objection to the Mysore Govt being informed now about the rentals to be paid in respect of all classes of land including private lands, as suggested by Finance. Subject to orders the draft letter to the Secretary to the Hon'ble the Resident in Mysore below provides for this.

Portion marked 'B' above:- It appears from para 3 of the Collector's letter at p. 45 C.F. and para 2 of the Board's Rept. at p. 45 C.F. that the rate of rental of 1 anna per acre per annum in respect of unassessed ~~and~~ poramboke Govt lands is not intended to be provisional. It is not k whether the monsoon has already set in and the lands have got submerged. It will however appear from para 2 of the Board's Repr. at p. 35 C.F. that the Board has already instructed the Collector to finish the field work before the submersion of the lands and the staff required for the valuation of the lands has already been sanctioned — Vide the Memo at pp 22-24 C.F. and the Memo. at pp 41-42 C.F. Presumably the Collector has ~~already~~ taken steps to ~~commence the valuation~~ employ even the staff now proposed to be sanctioned, in anticipation of Govt. sanction — Vide para 2 of the Board's Repr. at p. 35 C.F. and para 2 of the Memo. at p. 42 C.F. In the circumstances, it is for orders whether it will be considered necessary to address Mysore to postpone flooding if this has not already been done. On a previous occasion, this was considered unnecessary — Vide para 3 of the Collector's letter at p. 38 C.F., para 3 of the note at pp 22-23 ante

The letter from the Secretary to the Hon'ble the Resident in Mysore and its enclosure at pp 93-97 C.F. are submitted for perusal. In the J.O. enclosed with the letter of the Secretary to the Hon'ble the Resident, the Mysore Govt. have only sanctioned a revised estimate which is an increase over the estimate previously sanctioned by that Govt. in their J.O. at pp 197-199 of J.O. Ms. No. 202 Revenue, dated 28-1-1941 for the first stage of the Jog Falls Hydro Electric Scheme. The increase in the original estimate is due to the need for producing more power by the Jog Scheme which is explained in the J.O. at pp 95-97 C.F. No action is necessary on the letter of the Secretary to the Hon'ble the Resident and on the J.O. enclosed therewith. Please see notes from p. 36 ante and the letter from the Secy. to the Resident in Mysore at pp. 116-117 C.F. The Govt. of Mysore have agreed to to pay the value of tree growth on all unoccupied Govt. lands also and have requested ~~to permit~~ that their officers may be permitted to exploit, before the next monsoon, the forest produce of the area liable to submersion in the Coondapur taluk, S. Kanara dt.

In 1939, in connection with the Jog Falls Hydro Electric project surveys the Mysore Govt. requested permission for their P.W.D. staff to enter the Coondapur taluk for conducting surveys and this permission was ~~now~~ granted in this Deptt's letter No. 2640-B.G./39-16, dt. 29.11.1939. If~~ as ~~so~~ the correspondence available with the Govt. are available also with the Bd. of Rev. Mr. Gaume wants ~~also~~ a sketch or plan showing the site of the dam and the waterspread of the reservoir. p. 123 cf

The villages affected by the scheme were first reported to be Hebbige and Koteshwar villages and the extent of lands ~~proposed to be acquired~~ liable to be affected — private, poramboke and Govt. assessed waste lands — was reported as 1120 acres. Later it was stated that the village of Nagodi was also affected. p. 31 cf. 4/(5)

See p. 11 of f
p. 52 cf.

The total estimated area in ~~these~~/villages affected by the scheme is stated 1278.53 acres of which an extent of about 435-60 1/2 acres is reported to be occupied lands (that have to be acquired) the remaining extent of lands being mostly or entirely lands at the disposal of the Govt. The plans and sketches available with the Govt. on the subject are at pp. 185-87, 189 & 191 and 193 of (S). None of them indicates the portion of the dam. As regards the area liable to submersion the sketches show only the area in Hebbige and Kotesherur villages. They do not show the area liable to submersion in Nagodi village. These may be sent to Bd. of Rev. for reference and return. Draft D.O. is subd.

2. Attention is ~~also~~ invited to para 4 of the Coll.'s letter at pp. 130-131 CF. The further report referred to at 'X' on p. 131 CF. may be awaited till 1.6.44.

The Board wants to know

(i) the waterspread in all the villages - not only Nagodi:

This is presumably the 1,800 ft. contour level. Is there an Engineer's plan in the file showing the ~~conditions~~ contours? I know that there is an ordinary Taluk map showing it.

(ii) If the villages are affected in other ways, viz., otherwise than by submersion e.g. are any lands to be covered by dams, power works, margins for safety etc?

2. Has the Collector or ~~the~~ Sub-Collector inspected this Land Acquisition work? If not, suggest to Board in D.O. that someone ought to go and have a look at it.

3. Whoever goes ~~[illegible]~~ to inspect should report on whether Mysore may be told not to submerge this year.

S.W.C.D.
24.4.44.

To U.S. Para 1 (1) of U.S.'s note above.

The sketches etc. available with this Govt. are those on pages 185, 187, 189, 191 and 193 of G.O.No.202, Rev., dated 28.1.1941. The one on p.189 of the G.O. is an ordinary taluk map, and those on pp. 185 & 193 ~~are prepared by~~ were received from the Collector. The sketches at pp. 187 and 191 ~~are~~ were prepared by the Chief Electrical Engineer to the Govt. of Mysore. None of these two sketches indicate the position of the dam. They show the contour lines (i.e. the 1,800 ft contour level - see p. 61 of (5)) and the area liable to submersion both in the Mysore territory and in the Coondapur taluk. But it is ~~not clear~~ does not appear whether the portion shown in them cover the extent in Nagodi village also - c.f. note on p. 41 ante.

Lists of lands in Hebbige and Koteshirur villages likely to be submerged were furnished by the Collector in 1939. They are on pp.37-56 of G.O.No.202, Rev., dated 28.1.1941. (If not where they are available) (These lists will be available with the Board also). As regards Nagodi village no such list is available.

Attention is in this connection invited to the Mysore Govt.'s letters on pp.31-32 C.F. - particularly the portions marked 'M' and 'N' on ~~it.~~ p.31 CF It is likely that uptodate sketches and

plans showing the entire waterspread and contour level will be available with the Collector and the Survey Circle Officer. The Board may be informed accordingly. The sketches at pp.187 and 191 of (S) may also be sent to the Board.

(S)

Para 1(ii) of U.S.'s note. The correspondence in G.O.No.202, Rev., dated 28.1.1941 and in the ~~current~~ file, have been gone through. There is no information on this point. The Board may obtain the information from the Collector of South Kanara. This may be suggested to the Board if necessary.

Paras 2 and 3 of U.S.'s note. There is no information whether the Collector ~~or Sub Collector (R.D.O.)~~ inspected the area. It was reported that the R.D.O. Coonthapur had inspected the work in Dec. 1942. ~~But~~ A Special Deputy Collector is in charge of the acquisition work. It may be suggested to the Board that the Collector or R.D.O. should inspect the area and make a report as to whether Mysore Govt. may be asked not to submerge the area this year. (It was stated that the lands would not be submerged in 1943 - See B on p. 75 cf)

A on page 43. I doubt if the position is the same as that envisaged in para 5 of chapter XVIII Land Acquisition Manual. The instructions in the last sentence of para 5 should generally be taken to refer to exhorbitant claims made at a late stage of the acquisition. No No.6 notification has been published yet in this case. The severed portions which Collector now proposes to acquire should be included in the No.6 notification.

2. As to the road. From A in Collector's letter on page 32 and District Board Engineer's letter on pages 35-36 C.F. of flag (S) it appears that Mysore are expected to construct the road, bridges, etc. Most of the land over which the new road will run appears to be in Mysore territory. If so, Mysore may be asked to construct the roads and may be asked to construct them at once before submersion of existing roads after consultation with the District Board Engineer and the Collector of South Kanara. ~~The Board~~ ~~may be asked to report~~ Mysore have agreed to bear the charges for "the construction of fresh roads,

bridges and structures required in place of those affected by inundation. Whether Mysore will also agree to pay Rs. 29,740 for the abandoned roads in addition is doubtful But the claim may be made since the outlay by the District Board has been wasteful. The Board may be asked to report if the feeder road now mentioned by the Collector in para 2 of his letter is the same as that proposed in Government's letter dated 15-4-40. The letter to the Resident need not however be delayed on this account.

Please see the Bd's Repe. at p. 225 CF. with reference to the Coll's letter at pp. 221-223 CF. The Board's orders are not in accordance with Under Secy's suggestion at p. 221 CF. But in view of the urgency of the matter it is for orders whether the Board's instructions may be allowed to stand. (With reference to Under Secy's pencil query on p. 221 CF. attention is invited to the extracts from the Special Deputy Coll's report at pp. 131-138 CF.)

I. From the Bd. of Rev. Rep. J. No. 74/44-9, dt 9-6-44.

To Secy.

The file relates to the acquisition of certain lands in Coondapoor taluk of the South Kanara district for the Jog Falls Hydro Electric Scheme. At the time of the publication of the declaration under Sec. 6 of the L.A. Act the Govt. recommended the acquisition of certain bits of lands which would become useless to the owners for profitable cultivation on account of the acquisition of the remaining portions of their lands, in accordance with para 5 of Chap. XVIII of the Land Acquisition Manual. The Govt. subsequently pointed out on 1-5-44 that, as their value was very small when compared with that of the lands already notified, a no 4(1) notification was necessary but that it would be sufficient if Govt ordered acquisition of the whole lands, as mentioned in the last two sentences of para 5 of Chap. XVIII of the L.A. Manual. But it was considered that, as the instructions in the last sentence of this para should generally be taken to refer to exorbitant claims made at a late stage of acquisition they might be included in the draft declaration under Sec. 6. By that time the draft declaration was published in the Fort St. George Gazette on 2-5-44. On a further reference from the Govt. the Bd. of Rev. ordered that action should be taken under Sec. 49(2) of the L.A. Act.

2. This order of the Bd. of Rev. is in contravention of its previous opinion dt 7-2. (This Repe. was not communicated at the time of submission of draft dec.) Under Sec. 49(2) of the Act the Govt. may at any time before making the award, order the acquisition of the whole land, of which the land first sought to be acquire

forms a part, in case of claims by interested persons under Sec. 23(1) thirdly, of the Act on account of the severing of the land to be acquired from his other land if it is found that the claim is unreasonable or excessive. In this case no unreasonable or excessive claims have been reported; on the other ~~than~~ hand the owners themselves have objected to their severance. Moreover, this section refers to only to ~~cases~~ one of the cases falling under Sec. 23 (1) which deals with the basis of award by the Court and not by the Land Acquisition Officer. In the circumstances it appears better to publish a supplemental notification under Sec. 6 in respect of these severed bits of lands. A draft Memo is submitted for approval.

3. Please see also ~~para~~ the Board's Refce at pp. 229-230 C.F. with reference to para 2 of this Deptt's D.O. at p. 192 C.F. The Mysore Govt may now be requested (1) to furnish the sketch mentioned in para 1 of the Coll's letter at p. 229 C.F. and (2) not to submerge the area this year. A draft letter to the Resident is also subd. for approval.

Issue draft-II. As regards draft-I, contradicting orders have been issued both by the Bd & in Rev. Legal may be requested to advise re. the correct procedure — whether § 49 (2) applies to this case or a separate D.D under § 6 shd be published. 13/6/44.

Legal

Legal Department.

Section 49 (2) of the Land Acquisition Act applies a case where a person makes a claim for compensation on account of damage sustained by him by reason of severanc of the land taken possession of by the Collector from his other land and the Government are of opinion that su

claim is unreasonable or excessive. In such a case the Government may at any time before the Collector has made his award direct the acquisition of the whole land and no declaration or proceedings under section 6 will be necessary. In this case the persons interested have not made any claim for compensation which in the opinion of the Government is unreasonable or excessive. On the other hand they have objected to the severance and prayed for the acquisition of the remaining property also. Section 49 (2) does not seem to be applicable to such a case and consequently supplemental declarations under section 6 will be necessary.

I may observe in this connection that the reference in section 49 (2) to "claim under section 23 sub-section (1) thirdly" should be construed as having reference to claims of the nature mentioned in the latter. Obviously it cannot refer to a claim actually made in a Court; for action under section 49 (2) is open only before the Collector has made his award which precedes a reference to the Court

Replies are still awaited in this file on the following references:

(1) letter to the Secy to the Hon'ble the Resident Mysore dt 25.5.44 (at pp. 207-209 CF) requesting him to move the Mysore Govt. to place a sum of Rs. 159,893-23 required for the acquisition of private lands & Rs. 29740 required for payment to the Dt. Bd. at the disposal of the Govt. and the reminder to this letter (pp. 235-236 CF)

in avoiding postponement — both legal & practical — and ask them for funds. Meantime, the Dy Collr will have to put off passing award orders. I fear that by declaring to reply the Mysore Govt may achieve their object. A rather full telegram to Mysore & a post copy along with our letter of 15/7/44 are submitted.

This Govt is partly at fault. The Govt should have been sent to Mysore after Collr had submitted his report on the preliminary valuation with the decl. & declarations. Collr submitted this on 18.12.43. Thereafter Board of Rev. ~~It was not received from Bd. after till 19.5.44, though we issued a reminder.~~ Mysore were informed of the amount of the valuation only on 25.5.44.

On the other hand, provided Mysore got the notices prescribed under the Act in time, they could have no legitimate grievance.

Moreover please see para 5 in Chap. II Part III Lands Manual. If the acquiring body wished to supply any data for valuation, it should have supplied it to the enquiring officer, Tahsildar & the like, when they were making preliminary enquiries.

The telegrams to the Special Deputy Collr. and the Resident in Mysore have been issued. A draft letter to the Resident is submitted.

To Ho.

Please see Memo No. 5537-EG/42-48, dt 8-7-44 and the Board's Reply at pp 1-3 CF. The Memo was based on the remarks of Legal Secy. at pp. 48-49 of G.O. 1420 Rev. dt 10-7-44. The Coll. of S. Kanara for the reasons stated in ~~paragraphs~~ his letter at pp 1-3 CF now considers that Sec. 49(2) of the L.A. Act applies to this case. ~~The remarks of Legal may be invited in the first instance.~~ At B at 148 pp 1 c f., the Coll. suggests that the parties claim to be paid for the lands already notified & compensation representing the value of the entire lands (including the severed bits). This is unreasonable and excessive and seems to bring the case under sec. 49(2) of the Act. Remarks of Legal may be invited.

ASR 14.8.44 AT Ans p 3 of the Collector concedes that no reduction in compensation is reasonable & that it should be given for the severed bits also.

Sec 49(2) in its phrasing seems to be applicable only to a case where Govt considers a claim unreasonable or excessive.

But Govt doesn't consider it so in this case.

It would therefore appear that draft declaration and all the procedure prescribed under the L.A. Act must be complied with even though this involves delay.

Land Acquisition - (S.Kanara) - Coondapur taluk - Jog Hydro Electric Scheme - Formation of new roads etc. - Report.

From the Resident in Mysore, No.RF.256/40/Pol., dated
From the Bd.of Rev.Ref.No.I.971/45-4, dated 9-7-1945
From the Bd.of Rev.Ref.No.I.971/45-5, dated 16-7-1945

In 1939, the Government of Mysore asked this Govt. whether we would agree to the construction of a dam in Mysore territory in connection with Jog Falls Hydro Electric Scheme as it would inundate parts of Coondapur taluk of South Kanara District of this Province and whether the Mysore Govt. would be allowed to acquire such of the area in Coondapur taluk as would be inundated. This Govt. replied that they were prepared to acquire private lands likely to be inundated and to grant to the Mysore Govt. those lands as well as the Govt. lands that may be inundated on a 999 years' lease subject to certain conditions.

The subject matter with which we are concerned in this file deals with a subsidiary point relating to the construction of a new road to replace the existing road known as the Bennette branch road which will be submerged as a result of the inundation of the lands acquired and the payment by the Mysore G for the construction of fresh roads, buildings etc. required in place of the roads which will be affected by inundation. In that connection the Collector of S.Kanara reported that if the Bennette branch road (which was to be submerged as a result of the inundation) was abandoned, the hamlets of Hann Kotesirur, Hebbige and Bennette would have no means of commu nication with the main Lakshmipuram Road either towards Myso or towards Kollur and that a feeder road should be formed fo the benefit of the inhabitants of these villages from the district boundary at the Bennette limit to the corresponding boundary in the main Lakshmipuram Road. As an alternative ro was necessary before the existing road was submerged, the Govt. of Mysore was requested to take up its construction urgently. The Mysore Govt. replied that at a joint discussi of their Executive Engineer with the Collector of S.Kanara, an alternative road connecting Kotesirur with the main Laksh puram road to give access to all hamlets except Hebbige was

agreed to, and that the Mysore Govt. have been informed by the Collector that no further compensation need be paid by Mysore as the cost of constructing new roads and culverts will not exceed Rs.29,740 already placed at the disposal of this Government.

In Endorsement at p.3 c.f. the Collector was asked--

(1) whether the new road has been constructed and whether it would meet all future requirements,

(2) how access was to be had to Hebbige, and

(3) whether the sum of Rs.29,740 has been paid by the Mysore Govt. for credit to the Local Board Funds.

The Collector's letter and the Board's Ref. on p.5-6 c.f. is a reply to point (1) of the Govt. Endt. referred to above.

The two points on which information was pending are;-

(1) a further report in the matter of giving access to Hebbige village by road, and

(2) payment of Rs.29,740 by Mysore Government.

Point (2) above.- The A.G. has since reported that the sum was ordered to be paid to the Collector as early as October 1944. The Board has asked the Collector to state why he said that the matter was pending with the A.G. and has directed the Collector to look into the matter and send a further report.

A further report on point (1) above is also awaited.

Please see the notes from p. 1 above. The District Board, Sagara has proposed to lay a new road to give access to Helbige village. The cost is estimated to be Rs. 10,000. The Collr. has not stated whether any compensation should be claimed from the Mysore Govt. towards the cost of these roads. Presumably the cost will be borne by the Dist. Board. In the wording of Govt. Letter on p. 2 cf, it is doubtful if the Mysore Govt will agree to pay any more compensation.

According to the census of 1941 Hebbige is a hamlet of only 108 houses with a population of 578. It appears from the letter on p. 2 C.F. that at the time of the joint discussion on 13-10-1944 the Collector of South Kanara thought there was no need to build a special road for this village. In view of the smallness of the village it is for consideration whether we should ask Mysore for a contribution of Rs 10,000/-.
